*Cachuma Operation & Maintenance Board*

December 19, 2022

Honorable Members of the Board of Directors  
Cachuma Operation & Maintenance Board

We are pleased to submit the Annual Comprehensive Financial Report (ACFR) of the Cachuma Operation & Maintenance Board (COMB) for fiscal year ended June 30, 2022 with comparative information for fiscal year ended June 30, 2021.

The report is presented to provide the COMB Board of Directors, its Member Agencies, stakeholders and the community detailed information about the financial condition and operating results of COMB. COMB staff worked collectively through our auditors and followed guidelines set forth by the Governmental Accounting Standards Board to prepare this report. The ACFR is presented in conformity with generally accepted accounting principles (GAAP).

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

COMB requires that its financial statements be audited by a certified public accountant selected by the COMB Board of Directors. Bartlett Pringle Wolf, LLP (BPW), certified public accountants, have issued an unmodified (“clean”) opinion on COMB’s financial statements for years ended June 30, 2022 and 2021.

The independent auditor’s report is located at the front of the financial section of this report. Management’s discussion and analysis (MD&A) immediately follows the independent auditor’s report and provides a narrative introduction, overview, and analysis of the basic financial statements. This introduction and the MD&A are complementary reports, which together are intended to provide a comprehensive view of the COMB’s finances and operations.

**Profile of COMB**

The Cachuma Project was constructed in the early 1950s by the United States Department of the Interior, U.S. Bureau of Reclamation (Reclamation) under contract with the Santa Barbara County Water Agency on behalf of the Cachuma Project Member Units. The current Cachuma Project Member Units are the Carpinteria Valley Water District, City of Santa Barbara, Goleta Water District, Montecito Water District, and Santa Ynez River Water Conservation District-Improvement District No. 1.

The Cachuma Project Member Units entered into contracts with the Santa Barbara County Water Agency for the purpose of receiving water from the Cachuma Project for use and benefit of the Member Units. Over the past sixty years, the Project has been the principal water supply for the Santa Ynez Valley and the South Coast Communities, delivering water to approximately 200,000 people.

COMB is a California Joint Powers Authority (JPA) formed in 1956 by the Cachuma Member Units pursuant to an agreement with Reclamation. The agreement transferred to COMB the responsibility to repair, replace, operate and maintain all Cachuma Project facilities exclusive of Bradbury Dam.

Since 1956, the JPA membership has changed. The current Member Agencies of COMB are the Goleta Water District, the City of Santa Barbara, Montecito Water District and the Carpinteria Valley Water District. The Santa Ynez River Conservation District, ID No. 1 (ID No.1), an original member of the JPA, notified the COMB Board of its intent to unilaterally withdraw from COMB on May 27, 2016. A Separation Agreement was entered into by ID No. 1 and COMB, and was approved by all parties effective August 28, 2018.

**Officials of COMB**

COMB operates under the general direction of four elected officials who are appointed by their individual representative water agencies/councils to serve on the COMB Board of Directors. The Board engages an external General Counsel for legal matters and a Certified Public Accounting Firm for external audit review. The Board directly employs a General Manager to oversee the administration and day-to-day operations of all divisions. An executive team performs under the direction of the General Manager and consists of three managers responsible for effective operation of the Administrative Division, the Operations Division, the Fisheries Division and Engineering.

The Board of Directors is responsible for governance and policy creation, and provides direction for implementation of those policies to the General Manager.

---

**Overview****Transferred Project Works Contract**

On February 24, 1956, the U.S. Bureau of Reclamation, the original Cachuma Project Member Units, and the Santa Barbara County Water Agency entered into a contract that provided for the transfer of Operation and Maintenance (O&M) of Transferred Project works to the original Member Units. The O&M contract has been amended by amendatory contracts since that time, one of which was executed with COMB as the contractor. In March 2003, Reclamation entered into a new contract with the COMB for the operation and care of the transferred project works including the Tecolote Tunnel and the South Coast Conduit system. The contract remained in effect through September 30, 2020. COMB initiated the contract renewal process with Reclamation during fiscal year 2019-20. In September 2020, Reclamation and COMB executed a three-year amendatory contract to allow for the completion of a long-term agreement.

COMB is responsible for diversion of water to the South Coast through the Tecolote Tunnel, and operation and maintenance of the South Coast Conduit pipeline, flow control valves, meters, and instrumentation at control stations, and turnouts along the South Coast Conduit and at four regulating reservoirs. COMB coordinates closely with the Bureau of Reclamation and Member Agencies' staff to ensure that water supplies meet daily demands. COMB staff reads meters and accounts for Project water deliveries on a monthly basis, and performs repairs and preventive maintenance on Project facilities and equipment. COMB safeguards Project lands and rights-of-way on the South Coast as the contractor for Reclamation. COMB is responsible for issuing Project water production and use reports, operations reports, fisheries reports, and financial and investment reports which track operation and maintenance expenditures.

**National Marine Fisheries Service****Biological Opinion and Fish Management Plan**

The United States Bureau of Reclamation currently operates and maintains Bradbury Dam and associated water transport and delivery structures, collectively known as the Cachuma Project on and near the Santa Ynez River the Cachuma Project Member Units. The Santa Ynez River is about 900 square miles in watershed area with Bradbury Dam located approximately 48 miles from the Pacific Ocean.

The National Marine Fisheries Services (NMFS) is the United States federal agency that oversees protection of Southern California steelhead (*Oncorhynchus mykiss*, *O. mykiss*). The Cachuma Project Biological Opinion (BO or BiOP) and the Lower Santa Ynez River Fish Management Plan (FMP) were issued in 2000 for implementation of steelhead management actions developed over many years of study by the Cachuma Project Member Units. The BO addresses the effects of the proposed Cachuma Project operations on steelhead and its designated critical habitat in accordance with Section 7 of the Endangered Species Act of 1973.

**National Marine Fisheries Service  
Biological Opinion and Fish Management Plan (Continued)**

The goal is to provide physical projects and management strategies that will protect, enhance, restore and create new habitat for spawning and rearing of endangered steelhead, while keeping a balance between fish management, other ecological needs, and the delivery of adequate water supplies to customers of local water agencies and groundwater recharge.

On behalf of the U. S. Bureau of Reclamation, COMB is responsible for implementation of the 2000 Biological Opinion and Fish Management Plan related to the Cachuma Project on the Santa Ynez River. These activities include ongoing scientific studies along the river, monitoring and recording changing conditions, and implementation of fish passage improvements as outlined in the 2000 Biological Opinion. In addition, a consensus based, long-term Fish Management Program was developed which provides protection for steelhead/rainbow trout downstream of Bradbury Dam through a combination of water releases from Bradbury Dam, through the Hilton Creek watering system and the removal or modification of numerous fish passage barriers to steelhead on tributaries to the mainstem Santa Ynez River. By implementing these actions, stakeholders in the Cachuma Project have created significant additional habitat for steelhead within the Santa Ynez River watershed.

**Drought Response and Management**

The Cachuma Project was designed primarily as a gravity flow system; however, when the lake level recedes below the lowest gate on the Intake Tower during severe drought, Cachuma Project water and State Water Project (SWP) water cannot be transported to the South Coast by gravity. Under these conditions, water must be pumped from deeper parts of the lake to the Intake Tower. Without the drought-period operation of an emergency pump and pipeline, water service would be interrupted, causing a widespread immediate threat to public health and safety within Goleta, Santa Barbara, Montecito, Summerland and Carpinteria.

During a drought period, the COMB Member Agencies dramatically increase their conservation efforts in order to minimize the impact of water shortages on the community. Drought conditions can last many years. The reductions in Cachuma Project water supplies have a major impact on water supply management for the COMB Member Agencies.

On July 8, 2021, amid intensifying drought and record-breaking temperatures across the Western United States, the Governor of California added nine counties including Santa Barbara County to the regional drought state of emergency proclamation. The emergency proclamation will enable state agencies to more quickly and effectively support drought response through actions such as expediting purchasing and contracting to complete projects that are imperative to water supplies. The Governor also called on Californians to voluntarily reduce their water use by fifteen percent with simple measures to protect water reserves if drought conditions continue, and to help maintain critical flows for fish and wildlife wherever possible.

**Drought Response and Management (Continued)**

The State Water Resources Control Board and the Department of Water Resources will monitor progress on voluntary conservation, reservoir storage, soil moisture and other metrics in the coming months to determine whether additional drought response actions are needed.

As of June 30, 2022, the elevation in Lake Cachuma was 706 feet, which equates to 82,339 acre-feet of water (or 42.7% capacity). State Water Project deliveries for 2022 are currently set at 5%. COMB staff has developed a lake elevation projection model for forecasting lake elevations and has implemented a regime to request Member Agencies' projected imports and exports on a periodic basis as part of its ongoing planning process. If drought conditions persist, the level of the lake is projected to fall below the elevation needed for water to flow unassisted into the Tecolote Tunnel and the South Coast distribution system by the summer of 2023 resulting in the re-establishment of the Emergency Pumping Facility Project (EPPF). An Emergency Pumping Facility (EPF), which included a pumping barge and a temporary floating pipeline, was used during 2014-2016.

The budget for FY 2022-23 includes the installation of a secured pipeline at Lake Cachuma. The secured pipeline is a 3600-ft long HDPE pipeline that will be connected to a pumping barge in times of drought to ensure continued water deliveries. The Secured Pipeline Project will also re-establish the capability to draft from the original Gate 5 elevation (660') and allow higher quality water (lower temperature and organic carbon) to be diverted to the Tecolote Tunnel under normal operations. COMB was awarded \$3M in grant funding which will be applied to the Secured Pipeline Project. Further details of this funding opportunity is provided on page 26.

**Coronavirus (COVID-19)**

On January 30, 2020, the World Health Organization declared the novel coronavirus outbreak, COVID-19, a "Public Health Emergency of International Concern" and on March 10, 2020, declared it a pandemic. Immediately following the declaration, COMB and its Member Agencies increased their regional coordination and communication to ensure safe and secure water service to the region. Public water supplies remain safe to drink due to numerous robust treatment processes used by local water agencies that includes filtration and disinfection. According to the Environmental Protection Agency (EPA), the World Health Organization (WHO), and the Centers for Disease Control and Prevention (CDC) the COVID-19 virus has not been detected in drinking water supplies, and based on current evidence, the risk to water supplies remains low.

As of June 30, 2022, the pandemic still persists and the declared state of emergency remains in place. COMB coordinates closely with the Santa Barbara County Health Department and follows all guidelines from the California Department of Public Health (CDPH) and Centers for Disease Control and Prevention (CDC). Additionally, COMB has updated its emergency response plans and is well prepared to maintain operations in the event of a crisis. COMB's top priority is to keep its employees, Member Agency staff, contractors, and vendors safe and healthy so we can continue to serve our community.

## Local Economy

Santa Barbara County is located approximately 100 miles north of Los Angeles and 300 miles south of San Francisco. The largest employment sectors include services, wholesale and retail trade, public administration, farming and manufacturing. The mild climate, picturesque coastline, scenic mountains, and numerous parks and beaches make Santa Barbara County a popular tourist and recreational area. The County spans over 2,700 square miles and includes an estimated population of 441,170.

*Santa Barbara Mission*

At the beginning of calendar year 2020, the actions taken around the world to help mitigate the spread of the coronavirus included restrictions on travel, and quarantines in certain areas, and forced closures of certain types of public places and businesses. Through much of calendar year 2020 and into 2021, the coronavirus and actions taken to mitigate it had an adverse impact on national and regional economies and the financial markets.

In the spring of 2021, certain sectors began to show recovery as vaccinations became available and restrictions were loosened. The County's average unemployment rate during fiscal year 2021-22 decreased from 7.3% to 4%. The June 2022 County unemployment rate of 2.8% was below the State unemployment rate of 4% and below the national unemployment rate of 3.8% <sup>(1)</sup>

Countywide estimated retail sales increased 18% to 9.94 billion for fiscal year 2021-22. In the Leisure and Hospitality sector, countywide estimated room sales increased by 54.9% to \$696.4 million. Countywide estimated Transient Occupancy Tax (TOT) revenue increased by 54.3% to \$82.3 million and Southern Santa Barbara County hotel room rates increased by 32.6% while available hotel room decreased by 1.3% from the previous fiscal year with a hotel occupancy rate of 72.9%. <sup>(1)</sup>

The real estate market continued its upward trend in price increases. The countywide median home prices increased 25.2% to \$879,426. <sup>(1)</sup> In the southern portion of Santa Barbara County, median home prices have increased to \$2,207,500 up from \$1,410,000 from prior year.

In the spring of 2022, the United States experienced a slowdown in recovery due to the military action in Europe (Ukraine invasion) as well as a spike in national inflation. For the twelve months ending June 2022, the annual inflation was 9.1%, the highest level since the end of 1981. Much of the inflation rise came from gasoline prices, which increased 11.2% during the month and 60% for the 12-month period.<sup>(2)</sup> Locally, rising costs for essential materials and supplies have placed additional pressure on COMB and our Members Agencies. Staff has worked aggressively to maintain costs in all areas by improving operating efficiencies and effectively utilizing internal resources when possible to achieve our objectives.

## Financial Planning

COMB operates under an annual budget, which is adopted by the Board in accordance with established short and long-term financial plans. The development and adoption of an annual budget is based on the Board's financial and operational policies. Its purpose is to maintain fiscal stability by providing a structural balance between revenues and expenditures and to identify programs of work COMB has pledged to support. In addition, the budget provides the financial resources necessary to achieve or advance management strategies and goals. It serves as a financial road map and communication tool describing programs of work, resource requirements, and functions as a guideline in accomplishing our mission in the most efficient, fiscally sustainable manner while ensuring maximum value to our Member Agencies. The COMB Budget can be found on the COMB website at [www.cachuma-board.org/comb-budget](http://www.cachuma-board.org/comb-budget).

The Government Finance Officers Association recommends that all governmental entities use some form of strategic planning to provide a long-term perspective for service delivery and budgeting. COMB has developed a comprehensive five-year Infrastructure Improvement Plan (IIP) that is used as an internal guideline for forecasting, budgeting and long term financial planning. COMB has updated the plan for FY 2021-25. The COMB IIP, including cost projections, can be found on the COMB website at [www.cachuma-board.org/infrastructure-improvement-program](http://www.cachuma-board.org/infrastructure-improvement-program).

The IIP formalizes the strategy for implementation of capital projects and programs needed to carry out the goals and policy objectives of the Board. The IIP is organized and structured to identify and prioritize rehabilitation projects necessary to protect, improve, and sustain a reliable source of water conveyed from the Cachuma Project to the South Coast communities of Santa Barbara County.

COMB staff actively pursues outside funding sources for all infrastructure improvement projects. Outside funding sources, such as grants, are used to finance only those improvement projects that are consistent with the Five-Year Infrastructure Improvement Project Plans and COMB priorities, and whose operating and maintenance costs have been included in future operating budget forecasts.

Board policy requires that all projects be approved through Committee and by the Board prior to commencement.

**FY 2021-22 Accomplishments**

During fiscal year 2021-22, COMB continued to focus its efforts on water supply reliability, infrastructure improvements, environmental stewardship, policies and financial responsibility, and improving workforce capabilities. Outlined below are highlights of accomplishments during this past fiscal year.

**Engineering and Operations Division****South Coast Conduit Pipeline Rehabilitation and Protection Measures**

- Commenced Schedule F of the South Coast Conduit Air Vacuum Air Release/Blow Off (AVAR/BO) Rehabilitation project in the Carpinteria area. External contractor rehabilitated four out of twelve structures with construction management performed by COMB staff. The remaining eight structures in the Carpinteria reach will require coordinated shutdowns in future years.
- Completed the La Mirada Isolation Valve project. The installation of the isolation valve will provide COMB with the operational flexibility to perform a shutdown of the South Coast Conduit (SCC) to rehabilitate three air valves and two blowoff structures including the two remaining subgrade air valves on the South Coast Conduit.
- Replaced the Toro canyon meter with a more advanced ultrasonic meter that has the capability to register a lower range of water flow.
- Performed an emergency leak repair to the Ortega outlet pipeline located at Ortega Reservoir. The last emergency repair for a leak on the South Coast Conduit system was in 2008. COMB was able to coordinate operations and the shutdown with its Member Agencies so that there were no customer outages during the repair. COMB was also able to complete four U.S. Bureau of Reclamation recommendations during the shutdown.
- Performed emergency repairs to the Goleta West Conduit with the assistance of an external contractor. The repair involved removing the damaged mortar coating on the pipeline, cleaning the pipeline to bare metal, and coating the pipeline with an epoxy resin reinforced with a silicon steel alloy for corrosion protection.
- Performed emergency repairs to locate six buried valve cans that were near the Schedule F AVAR/BO work at the request of the California Department of Transportation (Caltrans) as part of their upcoming paving project on Highway 192.
- Executed a Cooperative Agreement with Carpinteria Valley Water District (CVWD) to repair and rehabilitate aging infrastructure in the lower reach section of the South Coast Conduit and the CVWD distribution system.

**FY 2021-22 Accomplishments (Continued)**Secured Pipeline Project

- Received 100% designs for the Secured Pipeline Project from external consultant and updated project description.
- Submitted 100% designs, final design specifications, final design report, and project description to Reclamation's Environmental Compliance Branch Chief to incorporate the materials into their environmental review.
- Completed a formal bid solicitation for the construction portion of the project and awarded a construction contract to the most responsive, responsible proposer.
- Executed contracts for construction management services and engineering services during construction of project.
- All permits were obtained and all initial biological surveys were completed for the project and submitted to the regulatory agencies.

SCADA System Improvements

- Completed the Supervisory Control and Data Acquisition (SCADA) upgrade project. External consultant replaced nine Programmable Logic Controllers (PLCs) and upgraded system hardware and software as part of the COMB SCADA Master Plan.

Lake Cachuma Water Quality and Sediment Management Study

- Upgraded and calibrated the water quality sonde to take profiles including chlorophyll a and phycocyanin concentrations. Performed supplemental water quality sampling at Lake Cachuma.
- Incorporated water quality profiling at the Lake Cachuma North Portal Intake Tower and provided data to the South Coast water treatment plants' technical staff as part of a monthly sampling program.

COMB Building Replacement Project

- Replaced three aging mobile office buildings (circa 1974-1993) with newly manufactured and energy efficient mobile offices that will provide an environmentally friendly, sustainable office setting to conduct business.

Structure Maintenance and Inspection

- Operated and maintained the South Coast Conduit, which consists of 26.5 mile of pipeline with a combined 124 blow off and air vent structures, 43 turnout structures, 20 meters and 4 regulating reservoirs.

**FY 2021-22 Accomplishments (Continued)**Structure Maintenance and Inspection (Continued)

- Received and reviewed 1058 Underground Service Alerts (Dig Alerts) tickets and took appropriate action, as necessary.
- Monitored numerous construction projects adjacent to and within the United States Bureau of Reclamation right-of-way to ensure the protection of the South Coast Conduit.
- Installed a new pump for the Lauro reservoir debris basin. Staff cleared the debris basin in preparation for the upcoming rain season.
- Drained and cleaned the Carpinteria Reservoir in coordination with the COMB Member Agencies technical staff.
- Removed vegetation at all structure sites to ensure defensible space as required by the Santa Barbara County Fire Marshal.
- Performed weekly inspections of major facilities.
- Performed routine dam inspections and instrumentation reports (all reservoirs).
- Performed North and South reach structure maintenance as part of the annual Operating Division work plan.

Planning and Reporting

- Applied for and obtained a California Division of Drinking Water D3 Domestic Water Supply permit from the State Water Resources Control Board.
- Awarded a grant from the Department of Water Resources Urban and Multi Benefit Drought Relief Program for \$2,250,000. Funds from this opportunity will be applied towards the Lake Cachuma Secured Pipeline Project.
- Participated in the County of Santa Barbara Office of Emergency Management 2022 update to the Multi-Jurisdictional Hazard Mitigation Plan (MJHMP). COMB as a member of the Mitigation Advisory committee provided input on local hazard management activities and reviewed draft MJHMP components as part of a regional effort to update the MJHMP and annexes. The adoption of the Plan is targeted for the end of 2022.
- Updated Geographic Information Systems (GIS) mapping of the South Coast Conduit incorporating elevations based on drawings to allow evaluation of depth of cover at key locations (slopes/creek crossings).

**FY 2021-22 Accomplishments (Continued)**Planning and Reporting (Continued)

- Revised South Coast Conduit alignment based on potholing conducted within the easement of the South Coast Conduit. Potholed the conduit in seven locations and incorporated data into GIS system.
- Updated the COMB Infrastructure Improvement Plan for FY 2021-2025.
- Continued advancement of COMB's internal water accounting model to automate and improve monthly water accounting reports.
- Enhanced the Lake Cachuma elevation projection model for water supply and conveyance planning purposes.

Staff Recruitment and Development

- Hired and trained a Water Service Worker.
- Attended US Bureau of Reclamation dam tender training.
- Staff attended and presented at the annual Environmental Systems Research Institute (ESRI) International Users conference. The presentation titled "3D Analysis of Water Utility Pipeline and Land Elevation Changes" provided an overview of the work performed by COMB staff in modeling the South Coast Conduit and overlying land conditions in three-dimensional format. Pipeline visualization allows staff to quickly assess depth to the top of the pipe, especially at creek crossings, and track changes over time.
- Three staff members completed course work for the Drinking Water Operator Certification Program and passed the Distribution Operator II (D2) exam. COMB has two (2) D3 certified operations and three (3) D2 certified operators on staff.
- Completed required Sexual Harassment Prevention training in compliance with California AB 1825, AB 2053, and AB 1661.
- Conducted staff safety meetings.

Fisheries DivisionNMFS Biological Opinion (BiOp) and Fish Management Plan

- Conducted all 2000 BiOp compliance monitoring in the Lower Santa Ynez River (LYSR) basin and its tributaries including Lake Cachuma water quality monitoring.

**FY 2021-22 Accomplishments (Continued)**NMFS Biological Opinion (BiOp) and Fish Management Plan (Continued)

- Conducted all 2000 BiOp compliance monitoring in the Lower Santa Ynez River (LYSR) basin and its tributaries including Lake Cachuma water quality monitoring.
- Conducted all monitoring, analyses and reporting as requested by US Bureau of Reclamation in compliance with the State Water Board Order WR 2019-0148.
- Completed the Water Year (WY) 2021 Annual Monitoring Report (AMR) and Annual Monitoring Summary (AMS).
- Transferred all field monitoring data to Reclamation as requested and completed a QA/QC process of the entire dataset with Reclamation staff.
- Worked closely with the United States Bureau of Reclamation on all requested testing, modifications or operations of the Bradbury Dam, Hilton Creek Watering System and Hilton Creek Emergency Backup System to safeguard the fishery downstream of the dam.
- Worked closely and collaboratively with California Department of Fish and Wildlife on fish rescue in the LSYR mainstem in two different areas over several weeks due to dry conditions.
- Authored the Reasonable and Prudent Measure (RPM) 6 Compliance Report for the WR 89-18 release that occurred in 2021.
- Produced Hilton Creek Emergency Backup System Activation on Gravity Event Report.
- Completed End of Project Compliance Report, South Side Erosion Control and Reforestation Project at Quiota Creek Crossing 8.
- Developed RPM 6 Ramp-Down Stranding Event Report.
- Monitored and authored the report of the WY 2020 Passage Supplementation events.
- Completed fish scale mounting, photographing, reading, and reporting for calendar years 2020 and 2021.
- Worked with the COMB Operations Division on monitoring algae and nutrients in Lake Cachuma throughout the year.
- Continued to assist the COMB Operations Division on biological monitoring at the San Jose Creek Project as well as anywhere else needed at creek crossings of the South Coast Conduit.

**FY 2021-22 Accomplishments (Continued)**Oak Tree Program

- Planted 384 mitigation oak trees near Lake Cachuma as part of the surcharge operation at the Dam.
- Completed the 2020 Annual Oak Tree Survey and report that documented the status of the Lake Cachuma Oak Tree Restoration Program to the COMB Oak Tree Committee and COMB Board. The report is available on the COMB webpage at [www.cachuma-board.org/oak-tree-restoration-program](http://www.cachuma-board.org/oak-tree-restoration-program).
- Maintained a rigorous watering and maintenance effort of the mitigation trees in the Lake Cachuma Oak Tree Restoration Program throughout a very dry season that has shown positive results in sustaining those trees in multiple areas around the lake, within the County Park and around the dam.

Staff Development

- Continued outreach with Lower Santa Ynez River landowners (specifically in the Quiota Creek and Salsipuedes Creek watersheds), interested parties within the Santa Ynez Valley, and the County on a variety of fisheries related issues.
- Completed required Sexual Harassment Prevention training in compliance with California AB 1825, AB 2053, and AB 1661.

Administrative DivisionFinancial Audit / Budget Process

- Fiscal Year 2020-21 Audited Financial Statements received an unmodified (“clean”) opinion.
- Awarded the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA) for the Fiscal Year 2020-21 Annual Comprehensive Financial Report.
- Awarded the Distinguished Budget Presentation Award from the GFOA for the FY 2021-22 COMB Operating Budget document.

Risk Management

- Completed the annual ACWA/JPIA Worker’s Compensation, Liability, and Property Risk Assessment. ACWA/JPIA reviewed COMB’s Employment Practices, Heat Illness Prevention Program, ACWA’s Risk Control and Risk Transfer Manual, and COMB’s Workers Compensation and Liability Program experience history.

**FY 2021-22 Accomplishments (Continued)**Risk Management (Continued)

- Received the President's Special Recognition Award from the Association of California Water Agencies. The JPIA recognizes its members that have a loss ratio of 20% or less in the Liability, Property or Worker's Compensation programs.
- Received a Retrospective Premium Adjustment (RPA) refund of \$14k from ACWA/JPIA Liability, Property and Worker's Compensation program resulting from a low claims history.
- Attended the Operational Area (OA) Santa Barbara County Office of Emergency Management (OEM) committee meetings. The OA partners meet regularly to receive updates with respect to mitigation, preparedness, planning, coordination of response and recovery activities related to county emergencies and disasters.

Information Technology / Communications

- Conducted the annual Information Technology (IT) review with COMB's outsourced IT consultant. The purpose of the meeting was to review COMB's server and network systems, identify updates to system requirements, assess current IT protocols, review data disaster recovery practices, as well as, identify potential new risks against cybersecurity threats.

Planning and Reporting

- Participated in the Santa Barbara County Integrated Regional Water Management Program (IRWMP). The Cooperating Partners of IRWMP meet regularly to promote and practice integrated regional water management strategies; to ensure sustainable water uses, reliable water supplies and water quality, environmental stewardship, efficient urban development; and protection of agricultural and watershed awareness.
- Updated COVID-19 Preparedness and Response Plan in response to Cal/OSHA mandatory controls and procedures.
- Updated COMB's Personnel Policy and Employee Handbook for labor law updates and changes.
- Advancement of Infrastructure and Habitat Improvement Project Tracking activities and costs.
- Initiated an electronic scanning project to preserve hard copy documents into an electronic database for business organization, continuity and longevity purposes.

Staff Development

- Completed required Sexual Harassment Prevention training in compliance with California AB 1825, AB 2053, and AB 1661.

**Independent Audit**

Under the terms and provisions of the Joint Powers Authority Agreement, COMB requires that its financial statements be audited by a Certified Public Accountant selected and approved by the COMB Board of Directors. This requirement has been satisfied and the auditor's report is included in the financial section of this report.

**Awards and Acknowledgements**

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to COMB for its ACFR for the fiscal years ended June 30, 2021 and 2020. This was the fifth consecutive year COMB has achieved this prestigious award. In order to be awarded a Certificate of Achievement, COMB had to publish an easily readable and efficiently organized ACFR that satisfied both generally accepted accounting principles and applicable program requirements. The Certificate of Achievement is valid for a period of one fiscal year. However, we believe our current ACFR meets the Certificate of Achievement for Excellence in Financial Reporting Program's requirements and we are submitting to the GFOA to determine its eligibility for a subsequent certificate.

The preparation of this report would not have been possible without the skill, effort, and dedication of the entire staff of the Administration Division. I wish to thank the members of that division for their assistance in providing the data necessary to prepare this report. Recognition is also given to the COMB Board for their unfailing support for maintaining the highest standards of professionalism in governance of COMB. I am pleased to present this report to the Board of Directors for formal adoption.

Respectfully submitted,

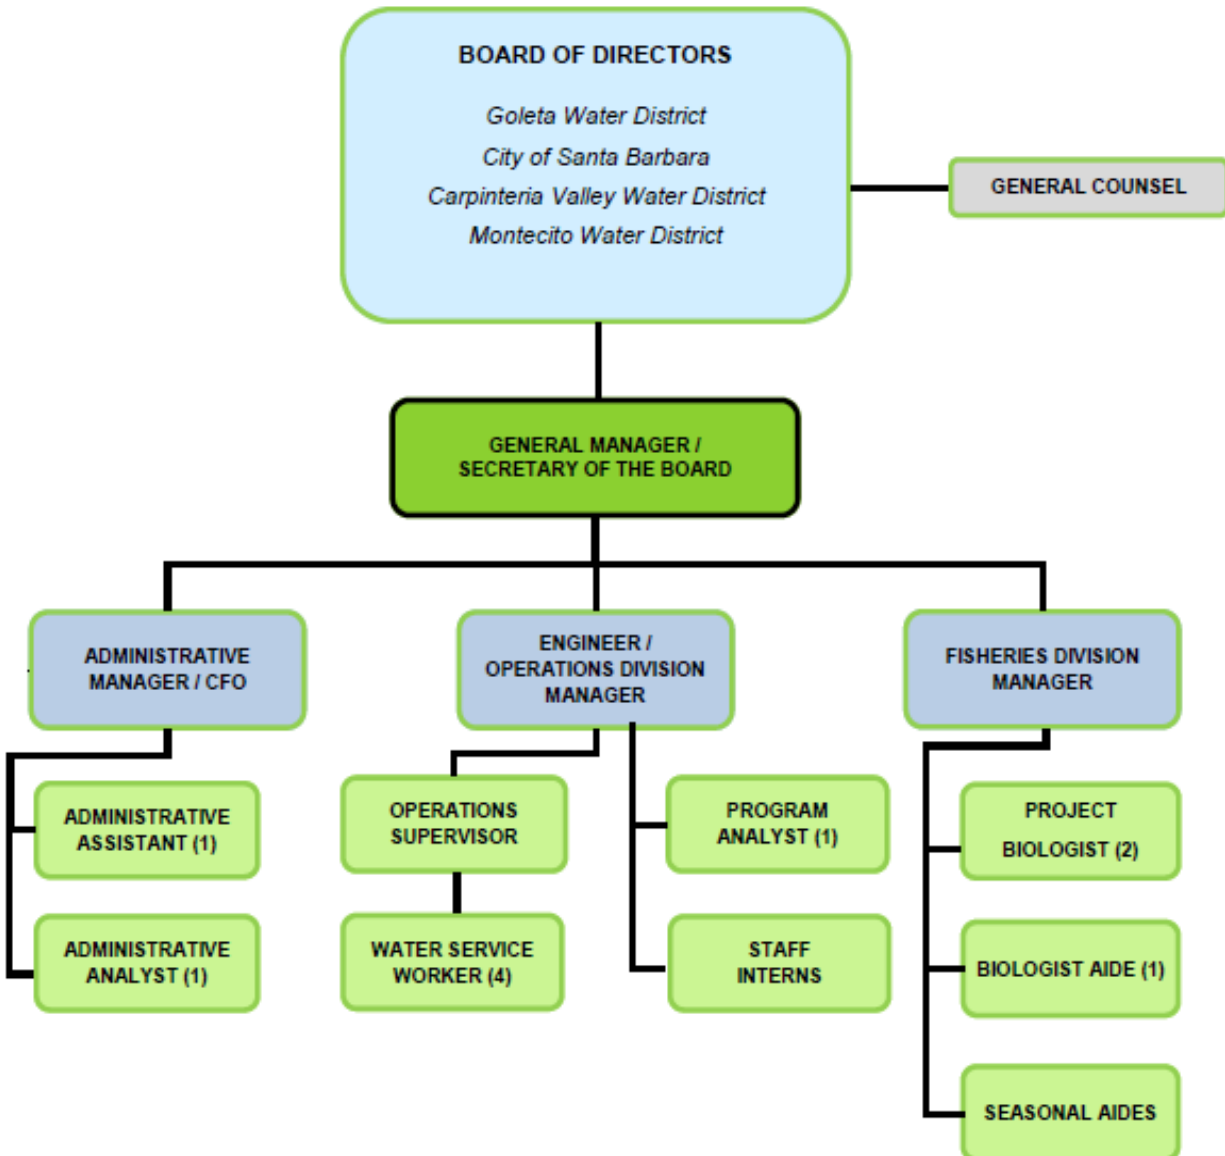

Janet Gingras  
General Manager

## CACHUMA PROJECT FACILITIES MAP

Water from Lake Cachuma is conveyed to the South Coast Member Units through the Tecolote Tunnel intake tower at the east end of the reservoir. The Tecolote Tunnel extends 6.4 miles through the Santa Ynez Mountains from Lake Cachuma to the western terminus of the South Coast Conduit, a concrete pipeline that extends 26 miles from the Tecolote Tunnel outlet to the Carpinteria Valley Water District. COMB is responsible for diversion of water to the South Coast through the Tecolote Tunnel, and operation and maintenance of the South Coast Conduit pipeline, flow control valves, meters, and instrumentation at control stations, and turnouts along the South Coast Conduit and at four regulating reservoirs. COMB coordinates closely with the Bureau of Reclamation and Member Units' staff to ensure that water supplies meet daily demands.

## **INDEPENDENT AUDITOR'S REPORT**

### **To the Board of Directors of Cachuma Operation and Maintenance Board**

### **Report on the Audit of the Financial Statements**

#### **Opinion**

We have audited the financial statements of Cachuma Operation and Maintenance Board (COMB) as of and for the years ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise COMB's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of COMB, as of June 30, 2022 and 2021, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of COMB and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

BARTLETT, PRINGLE & WOLF, LLP  
CERTIFIED PUBLIC ACCOUNTANTS AND CONSULTANTS

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about COMB's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the COMB's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about COMB's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

BARTLETT, PRINGLE & WOLF, LLP  
CERTIFIED PUBLIC ACCOUNTANTS AND CONSULTANTS

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the Management Discussion and Analysis on pages 23 through 39, the California Public Employees' Retirement System - Schedule of Cachuma Operation and Maintenance Board's Proportionate Share of the Net Pension Liability on page 82, California Public Employees' Retirement System - Schedule of Cachuma Operation and Maintenance Board's Contributions on page 83, and Other

Post-Employment Benefits (OPEB) Plan – Schedule of Changes in the Net OPEB Liability and Related Ratios on page 84 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise COMB's basic financial statements. The supplemental schedule of operation and maintenance, general and administrative and other maintenance expense on pages 85 and 86 is presented for the purpose of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and the other additional procedures in accordance with GAAS. In our opinion, the supplemental schedule of operation and maintenance, general and administrative and other maintenance expense is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

BARTLETT, PRINGLE & WOLF, LLP  
CERTIFIED PUBLIC ACCOUNTANTS AND CONSULTANTS

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2022 on our consideration of COMB's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of COMB's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering COMB's internal control over financial reporting and compliance.

*Bartlett, Pringle + Wolf, LLP*

Santa Barbara, California

## Management's Discussion and Analysis

### FISCAL YEARS ENDED JUNE 30, 2022 AND 2021

This section presents management's analysis of the financial condition and activities of COMB for the fiscal years ended June 30, 2022 and 2021. This information should be read in conjunction with the financial statements and the additional information included herewith.

### OVERVIEW OF THE FINANCIAL STATEMENTS

COMB operates as a proprietary fund-type. All proprietary fund-types use a flow of economic resources measurement focus. Under this measurement focus, all assets and liabilities associated with the operation of these funds are included on the Statement of Net Position and where appropriate, total net position (i.e., fund equity) are segregated into invested in capital and unrestricted net position. Proprietary fund-type operating statements present increases (revenues) and decreases (expenses) in total net position.

All proprietary fund-types utilize the accrual basis of accounting. Under this method, revenues are recognized when earned, regardless of when received, and expenses are recognized at the time the related liabilities are incurred, regardless of when paid.

### Summary of Organization and Business

COMB is a Joint Powers Authority and public entity in the County of Santa Barbara, organized and existing in accordance with Government Code Section 6500 *et seq.*, and operating pursuant to the 1996 Amended and Restated Agreement for the Establishment of a Board of Control, dated May 23, 1996 (Amended and Restated Agreement), as amended by an Amendment to the Amended and Restated Agreement made effective September 16, 2003 and a Second Amendment to the Amended and Restated Agreement made effective November 20, 2018 (collectively the Joint Powers Agreement or JPA). The Cachuma Project Member Units entered into the Joint Powers Agreement to exercise their common power to provide for the rights to, the facilities of, and the operation, maintenance and use of the United States, Department of the Interior, Bureau of Reclamation project known as the Cachuma Project, including storage, treatment, transport and appurtenant facilities, and all necessary tangible and intangible property and rights. In particular, the Member Units expressed their desire to create COMB for the purpose of providing authority for the financing of "costs" for the capture, development, treatment, storage, transport and delivery of water; and for repayment of notes, bonds, loans, warrants, and revenue bonds as may be issued to finance facilities, operations or services. In September 2010, the COMB Board approved a budget adjustment effective January 2011 to transfer from Cachuma Conservation and Release Board (CCRB) the implementation of the Santa Ynez River Fisheries Program as required by the 2000 Biological Opinion.

## Management's Discussion and Analysis

### OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

#### Summary of Organization and Business (Continued)

COMB currently has a staff of 15 full-time employees. Of these, four are employed in an administrative capacity and eleven are in field operations.

COMB is presently composed of four Member Agencies, all of which are public agencies: the Carpinteria Valley Water District, the Goleta Water District, the Montecito Water District, and the City of Santa Barbara. (A founding Member Unit of COMB, the Summerland Water District, reorganized with the Montecito Water District, with Montecito Water District as the successor agency. Another founding Member Unit of COMB, the Santa Ynez River Water Conservation District, assigned its Member Unit water contract to the Santa Ynez River Water Conservation District, Improvement District No. 1.)

On May 27, 2016, Santa Ynez River Water Conservation District, Improvement District No. 1 (ID No. 1) notified the COMB Board of its stated intent to withdraw from the Agreement. A Separation Agreement was entered into by ID No. 1, COMB, and the remaining COMB Member Agencies and was approved by all parties effective August 28, 2018. ID No. 1 continues to be a member of the Cachuma Project, which carries certain benefits and obligations associated with the Project as outlined in various agreements.

Under the Joint Powers Agreement, each of the four Member Agencies appoints a representative to the COMB Board of Directors. The following table shows number of votes each has on the Board of Directors:

<u>Member Unit</u>	<u>Board Representation</u>
Carpinteria Valley WD	1 vote
Goleta Water District	2 votes
Montecito Water District	1 vote
City of Santa Barbara	2 votes
Total	<u>6 votes</u>

Votes representing a majority of the number of votes authorized under the Joint Powers Agreement are required for the approval of any decision, other than adjournment, which requires action of the Board of Directors. In addition, the affirmative vote of at least three representatives to the Board of Directors is necessary for the approval of such a decision.

---

## Management's Discussion and Analysis

### OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

#### Summary of Organization and Business (Continued)

The unanimous consent of the representatives of all the Member Agencies is required for COMB to take action on the following matters:

1. Approval of a Cachuma Project Master Contract amendment, renewal or extension;
2. A matter involving water rights of any party;
3. Acquisition of significant facilities from the United States;
4. Issuance of bonds, loans or other forms of indebtedness in excess of one million (\$1,000,000) dollars.

A decision of COMB authorizing a capital expenditure in excess of one million dollars or incurring an indebtedness or obligation in excess of one million dollars is not effective unless it has been ratified by a resolution approved by all of the Member Agencies.

#### Operating Assessments

Current operations of COMB are funded by assessment of the Member Agencies, with the assessments based on the Member Agencies' Cachuma Project entitlement percentages. The four COMB Member Agencies also fund the operation and maintenance portion of the annual budget as well as the cost of special projects for other Cachuma Project storage and conveyance facilities that serve the South Coast of Santa Barbara County. These facilities include the Tecolote Tunnel, the South Coast Conduit (SCC), and four dams and reservoirs (Glen Annie, Lauro, Ortega and Carpinteria). During the fiscal year ended June 30, 2022, COMB conducted and/or completed a number of special studies and projects using revenue provided by these assessments. These projects included storage of key components of the Emergency Pumping Facility, improvements to the South Coast Conduit; and rehabilitation and betterment of control stations, valves and structures.

In September 2010, the COMB Board approved a budget adjustment effective January 2011 to transfer from Cachuma Conservation and Release Board (CCRB) the implementation of the Santa Ynez River Fisheries Program as required by the 2000 Biological Opinion. All four Member Agencies fund the general and administrative portion of the annual budget as well as the cost of special projects. All four Member Agencies also fund the Santa Ynez River Fisheries Program and related activities. Pursuant to the Separation Agreement between COMB and ID No. 1, starting in Fiscal Year 2017-18 and going forward, certain actual expenditures incurred by COMB will be collected from ID No. 1 through an invoice issued quarterly to it by COMB.

---

## Management's Discussion and Analysis

### OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

#### Grant Program

COMB has developed a grant program by utilizing a team of staff members to write proposals, administer grants and carry out grant contracts. They have applied for and received various federal and state contracts for habitat enhancement, fisheries projects within the Lower Santa Ynez River drainage and South Coast pipeline improvement projects. The utilization of these grants has assisted the Member Agencies in accomplishing required fisheries restoration and habitat improvement projects as well as vital infrastructure improvement projects.

In 2019, COMB was selected under the US Bureau of Reclamation Drought Resiliency Program for a WaterSMART Drought Resiliency Project grant for \$750,000. In 2022, COMB was awarded a grant from the Department of Water Resources Urban and Multi Benefit Drought Relief Program for \$2,250,000. Funds from both of these grants will be applied towards the Lake Cachuma Secured Pipeline Project. The installation of the pipeline is scheduled to be completed during FY 2022-23.

In 2021, COMB entered into a Cooperative Agreement with Carpinteria Valley Water District (CVWD) proposing a collaborative work effort between CVWD and COMB to repair and rehabilitate aging infrastructure in the lower reach section of the South Coast Conduit and the CVWD distribution system. CVWD proposed to financially participate in rehabilitating SCC laterals in collaboration with COMB installing two (2) isolation valves on the SCC. This approach would allow improved isolation and enable longer shutdowns to repair and maintain the system in the future or during an emergency. Phase 2 of this project is scheduled to be completed in FY 2022-23.

#### COMB Committees

COMB has five standing committees: the Administrative Committee (financial, personnel and legal matters), the Operations Committee, the Fisheries Committee, the Public Outreach Committee, and the Lake Cachuma Oak Tree Committee. Each committee is composed of two Board members and one alternate Board member. Appointments to the committees are made by the President of the Board. The committees meet with staff on an as-needed basis and make recommendations to the Board of Directors with regard to capital improvements, finance, and other matters. From time-to-time, COMB utilizes ad-hoc committees, which are temporary in nature.

## Management's Discussion and Analysis

### FINANCIAL HIGHLIGHTS

The following table shows a condensed version of COMB's statement of net position with corresponding analysis regarding significant variations.

#### Condensed Statement of Net Position

	Year Ended			2022-2021 Variance		2021-2020 Variance

## Management's Discussion and Analysis

### FINANCIAL HIGHLIGHTS (Continued)

#### Statement of Net Position Analysis

June 30, 2022 Comparison to June 30, 2021

Total assets reported as of June 30, 2022 increased by \$413,879 (5.3%) as compared to June 30, 2021. The changes are noted below.

- Current assets include cash and cash equivalents, prepaid assets and accounts receivable. During fiscal year 2022, current assets decreased by \$325,508 (11.8%) as compared to fiscal year 2021. The decrease in current assets was attributed to a decrease of \$230,242 in deposit on modular office building and a decrease in assessment receivable of \$115,683. The decrease in deposit on modular office building was related to two new modular office buildings that were completed and installed during FY 2021-22. The decrease in assessments receivable was attributed to the notes payable for the Emergency Pumping Facility Project that was paid in full in July 2021.
- Restricted assets include funds deposited into the Warren Act Trust Fund and the Renewal Fund. Restricted assets increased \$182,994 (191.3%) in fiscal year 2022 due to an increase in deposits into the Warren Act Trust Fund. Deposits into the Warren Act Trust Fund are variable in nature and are directly tied to the annual amount of State Water Project Water delivered to the lake on behalf of the State Water Project (SWP) participants during each calendar year. Funds are reviewed annually by the Funds Committee for use in the upcoming fiscal year.
- The value of property, plant, and equipment increased \$810,988 (553.2%) in fiscal year 2022 primarily due to the purchase of three modular office buildings for \$424,910, construction in progress for the Lake Cachuma Emergency Pumping Facility Secured Pipeline project for \$258,787, a new fleet vehicle for \$74,991 and furniture and equipment of \$94,897. This amount is offset by current year depreciation expense of \$49,741.
- Other assets decreased in fiscal year 2022 by \$254,595 (5.3%) primarily due to a decrease in the long term Bradbury and Lauro SOD Act assessments receivable, as described in Note 6 - SOD Act Assessments Receivable and Contracts Payable in the Notes to the Basic Financial Statements.
- Deferred outflows and deferred inflows are related to accounting for pension liabilities associated with GASB 68 and OPEB liabilities associated with GASB 74. This is further detailed in Note 12 - Pension Plan and Note 13 - Other Post-employment Benefits (OPEB), in the Notes to the Basic Financial Statements.

## Management's Discussion and Analysis

### FINANCIAL HIGHLIGHTS (Continued)

#### Statement of Net Position Analysis (Continued)

June 30, 2022 Comparison to June 30, 2021

Total liabilities reported as of June 30, 2022 decreased by \$3,530,422 (24.7%) as compared to June 30, 2021. The changes are noted below.

- Current liabilities represent the balance in accounts payable, the current portion due (within one year) of long term debt, payable to Member Units, accrued wages and deferred revenue account balances. Current liabilities increased by \$72,321 (4.4%) in fiscal year 2022 as compared to fiscal year 2021. The net change in current liabilities was primarily attributable to an increase in accounts payable and accrued expenses of \$203,473, an increase in unearned revenue of \$182,994, and is offset by a decrease in payables to member agencies of \$279,474 and in notes payable - EPPF of \$36,623. The change in accounts payable and accrued expenses can fluctuate based on the timing of payment of expenses. The increase in unearned revenue was attributed to deposits made into the Warren Act Trust Fund which are variable in nature and are directly tied to the annual amount of State Water Project Water delivered to the lake on behalf of the State Water Project (SWP) participants during each calendar year. The amount payable to Member Units can fluctuate due to current year unexpended funds and carryover funds for project expenditures delayed or placed on hold. The decrease in notes payable is attributed to the pay down of principal for the EPPF loan obligation.
- Long term liabilities decreased by \$3,602,743 (28.4%) in FY 2022 as compared to FY 2021. The decrease was attributed to a decrease net other post-employment benefit liability of \$2,432,382, a decrease in net pension liability of \$915,766 and a decrease in SOD Act contract payable resulting from loan repayments of \$254,595. Note 13 – Other Post-employment Benefits (OPEB) contains detailed information regarding accounting under GASB 75. Note 12 – Pension Plan contains detailed information regarding accounting under GASB 68.

Total net position reported as of June 30, 2022 increased by \$2,265,835 (38.9%) as compared to June 30, 2021. The changes are noted below.

- The amount invested in capital assets increased \$810,988 in fiscal year 2022 primarily due to a change in the value of property, plant and equipment as previously described.
- Unrestricted net position increased \$1,454,847 in fiscal year 2022. Unrestricted net position remains in a deficit position due to previous years' recognition of the GASB 68 pension liability and GASB 74 OPEB liability.

## Management's Discussion and Analysis

### FINANCIAL HIGHLIGHTS (Continued)

#### Statement of Net Position Analysis

June 30, 2021 Comparison to June 30, 2020

Total assets reported as of June 30, 2021 decreased by \$266,252 (3.3%) as compared to June 30, 2020. The changes are noted below.

- Current assets include cash and cash equivalents, prepaid assets and accounts receivable. During fiscal year 2021, current assets increased by \$56,833 (2.1%) as compared to fiscal year 2020. The increase in current assets was attributed to an increase of \$177,638 in cash and cash equivalents and an increase in prepaid assets of \$236,588. These amounts were offset with a decrease in accounts receivable of \$357,393. The increase in cash and cash equivalents was primarily due to an increase in unexpended funds scheduled for return to the COMB Member Agencies in fiscal year 2021 for project expenditures delayed or placed on hold. The increase in prepaid assets was attributed to a deposit paid for two new modular buildings in the amount of \$236,110. The decrease in accounts receivable represents the collection of an outstanding assessment receivable from a Non-Member Agency and a grants receivable FEMA (DR-4308) for the Sycamore Canyon Slope Stabilization Project.
- Restricted assets include funds deposited into the Warren Act Trust Fund and the Renewal Fund. Restricted assets decreased \$38,693 (28.8%) in fiscal year 2021 due to less funds deposited into the Warren Act Trust Fund. Deposits into the Warren Act Trust Fund are variable in nature and are directly tied to the annual amount of State Water Project Water delivered to the lake on behalf of the State Water Project (SWP) participants during each calendar year. Funds are reviewed annually by the Funds Committee for use in the upcoming fiscal year.
- The value of property, plant, and equipment decreased \$37,598 (20.4%) in fiscal year 2021 primarily due to asset disposals in the amount of \$108,340. This amount was offset by the purchase of field equipment for the COMB Operations and Fisheries divisions of \$12,600 and a decrease in current year depreciation expense of \$16,166.
- Other assets decreased in fiscal year 2021 by \$246,794 (4.9%) primarily due to a decrease in the Bradbury and Lauro SOD Act assessments receivable, as described in Note 6 - SOD Act Assessments Receivable and Contracts Payable in the Notes to the Basic Financial Statements.
- Deferred outflows and deferred inflows are related to accounting for pension liabilities associated with GASB 68 and OPEB liabilities associated with GASB 74. This is further detailed in Note 12 - Pension Plan and Note 13 - Other Post-employment Benefits (OPEB), in the Notes to the Basic Financial Statements.

## Management's Discussion and Analysis

### FINANCIAL HIGHLIGHTS (Continued)

#### Statement of Net Position Analysis (Continued)

June 30, 2021 Comparison to June 30, 2020

Total liabilities reported as of June 30, 2021 decreased by \$301,477 (2.1%) as compared to June 30, 2020. The changes are noted below.

- Current liabilities represent the balance in accounts payable, the current portion due (within one year) of long term debt, payable to Member Units, accrued wages and deferred revenue account balances. Current liabilities decreased by \$426,938 (20.8%) in fiscal year 2021 as compared to fiscal year 2020. The net change in current liabilities was primarily attributable to a decrease in accounts payable and accrued expenses of \$93,401, a decrease in notes payable of \$406,984, and is offset by an increase in deferred revenue of \$73,446. The change in accounts payable and accrued expenses can fluctuate based on the timing of payment of expenses. The decrease in notes payable is attributed to the pay down of principal for the EFPF loan obligation. The increase in deferred revenue is primarily attributed to the balance in payable to Member Units which can fluctuate due to current year unexpended funds and carryover funds for project expenditures delayed or placed on hold.
- Long term liabilities increased by \$125,461 (1.0%) in FY 2021 primarily due to the recognition of an additional GASB 75 OPEB liability of \$223,789 and net pension liability of \$185,062. Note 13 – Other Post-employment Benefits (OPEB) contains detailed information regarding accounting under GASB 75. Note 12 – Pension Plan contains detailed information regarding accounting under GASB 68. These amounts were offset by a decrease in notes payable and SOD Act contract payable resulting from loan repayments of \$283,390.

Total net position reported as of June 30, 2021 increased by \$290,632 (4.8%) as compared to June 30, 2020. The changes are noted below.

- The amount invested in capital assets decreased \$37,598 in fiscal year 2021 primarily due to a change in the value of property, plant and equipment as previously described.
- Unrestricted net position increased \$328,230 in fiscal year 2021. Unrestricted net position remains in a deficit position due to previous years' recognition of the GASB 68 pension liability and GASB 74 OPEB liability.

## Management's Discussion and Analysis

### FINANCIAL HIGHLIGHTS (Continued)

#### Statement Analysis

June 30, 2022 Comparison to June 30, 2021

The net position reported as of June 30, 2022 increased by \$2,265,835 as compared to June 30, 2021.

The changes are noted below.

- Operating revenues increased \$609,299 (14.5%) in fiscal year 2022 as compared to fiscal year 2021. The net change in revenue was due to an increase in operating assessments of \$736,225 and is offset by a decrease in Renewal and Warren Act Trust fund revenue of \$93,242. The increase in operating assessments were due to a shift in schedule for projects delayed during FY 2020-21 due to limitations for COMB to perform a shutdown to address previously planned rehabilitation work in the lower reach of the system. Revenue for the Renewal and Warren Act Trust fund are variable in nature and are directly tied to the annual amount of State Water Project Water delivered to the lake on behalf of the State Water Project (SWP) participants during each calendar year.
- Operating expenses decreased \$1,353,359 (35.7%) in fiscal year 2022 as compared to fiscal year 2021. The change in operating expenses was due to a decrease in general and administrative expenses of \$1,945,768 which was offset by an increase in special projects of \$493,009. The decrease in general and administrative expense was due to a decrease in the measured liability for Other Post-Employment Benefits. Further information is provided on page 39 – Other Post-Employment Benefits. Special projects are variable in nature and vary from year to year. The timing and ranking of projects are dependent on factors such as: (1) water supply reliability, (2) risk, (3) critical need/life cycle of asset, (4) safety, and (5) service disruption necessary to accomplish project.
- Non-operating revenues increased \$13,810 (163.9%) due to a gain on the sale of a capital asset of \$16,600. This amount was offset by a decrease in interest income of \$2,790 due to a decrease in the effective yield rate for amounts held on deposit. The average annual yield for fiscal year 2021-22 was 0.37% as compared to fiscal year 2020-21 which was 0.50%.
- Non-operating expenses increased by \$1,426 (2.1%) in fiscal year 2022 due to an unrealized loss on pool investments of \$20,503. This amount was offset by decrease in interest expense of \$18,776. The decrease in interest expense was attributed to decrease in notes payable and SOD Act contract payable resulting from loan repayments.
- The net position at end of year increased by \$2,265,835 (38.9%) in fiscal year 2022. Net Position remains in a deficit position due to previous years' recognition of the GASB 68 pension liability and GASB 74 OPEB liability.

## Management's Discussion and Analysis

### FINANCIAL HIGHLIGHTS (Continued)

#### Statement Analysis

June 30, 2021 Comparison to June 30, 2020

The net position reported as of June 30, 2021 increased by \$290,632 as compared to June 30, 2020. The changes are noted below.

- Operating revenues decreased \$2,496,347 (37.3%) in fiscal year 2021 as compared to fiscal year 2020. The net change in operating revenue was due to a decrease in grant revenue of \$1,526,155 and a decrease in operating assessments of \$653,754. In fiscal year 2020, COMB received grant revenues of \$1,010,700 related to the completion of one fish passage project. During the 2020 fiscal year, COMB also recognized \$562,024 in grant funding from FEMA and CalOES for the Sycamore Canyon Slope Stabilization Project. The decrease in operating assessments were due to a shift in schedule for completing projects during FY 2020-21 due to limitations for COMB to perform a shutdown to address previously planned rehabilitation work in the lower reach of the system.
- Operating expenses decreased \$2,692,645 (41.5%) in fiscal year 2021 as compared to fiscal year 2020. The change in operating expenses was due to a decrease in Quiota Creek crossing habitat enhancement projects of \$1,162,817. COMB constructed one fish passage project during fiscal year 2020. COMB did not complete a fish passage project in fiscal year 2021. In addition, infrastructure improvements projects decreased in the amount of \$1,115,555 compared to fiscal year 2020 due to project delays and limitations for COMB to perform a shutdown to address previously planned rehabilitation work in the lower reach of the system.
- Non-operating revenues decreased \$14,980 (64.0%) due to a decrease in the effective yield rate for amounts held on deposit. The average annual yield for fiscal year 2020-21 was 0.50% as compared to fiscal year 2019-20 of 1.93%.
- Non-operating expenses, which consist primarily of interest expense, decreased by \$24,604 (26.6%) in FY 2021 due to decrease in notes payable and SOD Act contract payable resulting from loan repayments.
- The net position at end of year increased by \$290,632 in fiscal year 2021. Net Position remains in a deficit position due to previous years' recognition of the GASB 68 pension liability and GASB 74 OPEB liability.

Note 9 - Capital Assets, in the Notes to the Basic Financial Statements, contains additional information on COMB's capital assets.

#### Debt Administration

##### Series 2004A Refinance Bonds

COMB and the Cachuma Project Authority (CPA) merged in 1996, with COMB as the successor agency. With this merger, COMB assumed responsibility for the oversight and payment of the Series 1993 CPA revenue bonds. However, the bonds are not recorded on the books of COMB because, under Joint Participation Agreements between COMB and three Agencies, these Agencies are obligated to make the bond principal and interest payments on behalf of COMB. The Series 1993 bonds were refinanced by COMB in the first quarter of fiscal year 2004/05. Note 14 – Commitments and Contingencies – 1993 Cachuma Project Authority Bonds, in the Notes to the Basic Financial Statements, contains additional information on the Series 2004A Refinance Bonds

##### Safety of Dams Repayment Contracts

Under the terms and conditions of a repayment contract executed in 2002, COMB is responsible for payment to the United States for fifteen percent (15%) of the total amount of Safety of Dams (SOD) Act funds expended by the United States for structural stability and related work at Bradbury Dam.

## Management's Discussion and Analysis

### FINANCIAL HIGHLIGHTS (Continued)

#### Debt Administration (Continued)

##### Safety of Dams Repayment Contracts (Continued)

The debt total under the contract as executed is approximately \$6,791,000 plus interest and is to be repaid through annual payments over a 50-year period. COMB assesses the Member Agencies annually to collect the revenue for the payment due that year, with the assessments calculated in accordance with each Member Agencies' Cachuma Project entitlement percentages.

The funds expended by Reclamation through June 30, 2013 on the Lauro Dam rehabilitation project as identified in the re-payment schedule for this project are approximately \$6,731,580. The fifteen percent obligation plus interest during construction equates to approximately \$1,009,737 for the Lauro SOD Act repayment debt which appears in the long term liability account. All work activities related to the Lauro SOD Act rehabilitation project have been completed as of June 30, 2012.

Work activities during the current fiscal year related to the completion of the Bradbury Dam SOD Act rehabilitation were relatively minor and produced an inconsequential increase to the overall debt obligation. Note 6 – SOD Act Assessments Receivable and Contracts Payable, in the Notes to the Basic Financial Statements, contains additional information on the Safety of Dams Repayment Contracts

##### American Riviera Bank Emergency Pumping Facility Project Notes Payable

During fiscal year ending 2015, COMB contracted for the construction of the Emergency Pumping Facilities Project (Project) to provide continued delivery of water from Lake Cachuma to the COMB Member Agencies until sufficient inflow occurs and the reservoir level returns to normal operating conditions. In order to implement this large-scale project, three of the four COMB Member agencies agreed to finance their proportionate share through a commercial financing arrangement with the Bank of Santa Barbara, which merged with American Riviera Bank during 2016.

The note consisted of two separate financing facilities: 1) A revolving line of credit (\$1.2 million) for a period of 24 months followed by a fixed 60 months of principal and interest, 2) A non-revolving line of credit (\$2.0 million) for a period of 24 months followed by a fixed 60 months of principal and interest. The districts participating in the financing included Goleta Water District, Montecito Water District, and Carpinteria Valley Water District. The City of Santa Barbara did not participate in the financing and chose to fund the project through quarterly assessments. Santa Ynez River Water Conservation District, Improvement District No. 1 was indemnified by the four South Coast Member Agencies and therefore not responsible for any project costs.

## Management's Discussion and Analysis

### FINANCIAL HIGHLIGHTS (Continued)

#### Debt Administration (Continued)

##### American Riviera Bank Emergency Pumping Facility Project Notes Payable (Continued)

COMB secured financing for the project. The three districts participating in the debt obligation provided the guarantee for repayment of their allocated percentage. In addition, the districts are held solely liable for any interest rate increase caused by a downgrade of their individual credit rating. The original financing terms included the conversion from lines of credit to a sixty-month repayment loan as of July 25, 2016. Carpinteria Valley Water District paid their obligation in full during fiscal year 2017. During fiscal year 2021-22, the two remaining water districts paid their obligation in full.

Note 7 – Notes Payable, in the Notes to the Basic Financial Statements, contains additional information on the American Riviera Bank Emergency Pumping Facility Project Notes Payable.

#### Pension Plan Accounting

In June 2012, the Governmental Accounting Standards Board (GASB) issued two new standards that substantially changed the accounting and financial reporting of public employee pension plans and the state and local governments that participate in such plans. GASB Statement No. 67, *Financial Reporting for Pension Plans* revises existing guidance for the financial reports of most governmental pension plans.

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* revises and establishes new financial reporting requirements for most governments that provide their employees with pension benefits. GASB Statement No. 67 is applicable to CalPERS and effective for financial statements for fiscal years beginning after June 15, 2013. GASB Statement No. 68 is applicable to employers and effective for financial statements for fiscal years beginning after June 15, 2014. GASB Statement No. 68 requires employers to recognize a liability as employees earn their pension benefits. To the extent that a long-term obligation to provide pension benefits (total pension liability) is larger than the value of the assets available in the plan (fiduciary net position) to pay pension benefits, the employers must report a net pension liability on the employer's accrual-based financial statements for the first time.

A cost-sharing multiple-employer plan (cost-sharing plan) is one in which the participating employers pool their assets and their obligations to provide defined pension benefits, such as employers participating in risk pools. Under the new GASB standards, each participating cost-sharing employer is required to report its proportionate share of the collective net pension liability, pension expense, and deferred outflows/deferred inflows of resources in their financial statements. Note 12 – Pension Plan, in the Notes to the Basic Financial Statements, contains detailed information regarding these balances.

## Management's Discussion and Analysis

### FINANCIAL HIGHLIGHTS (Continued)

#### Other Postemployment Benefits

In June 2015, GASB issued two new standards that changed the accounting and financial reporting of postemployment benefits other than pensions. GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pensions* amended GASB Statement No.43. GASB 74 became effective for financial statements for fiscal years beginning after June 15, 2016. GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* amended GASB Statement No. 45. GASB 75 became effective for financial statements for fiscal years beginning after June 15, 2017.

Under GASB Statement No. 75, government employers that sponsor OPEB plans will recognize a net OPEB liability in their statement of net position which is the difference between the total OPEB liability (actuarial accrued liability using the entry age actuarial cost method) and fiduciary net position (plan assets at fair value).

Agencies that provide OPEB to employees without the use of a trust are required to report the total OPEB liability for all employees' statement of net position. In addition, the annual required contribution (ARC) is to be replaced with OPEB expense and follows the same calculation as required under GASB Statement No. 68. Under GASB Statement No. 75, actuarial valuations are required every two years.

The new standards also require government agencies that offer OPEB plans to provide additional and detailed disclosures and supplementary information about OPEB liabilities and related assumptions to allow for better assessments of reasonableness of OPEB measurements. Note 13 – Other Post-employment Benefits (OPEB), in the Notes to the Basic Financial Statements, contains detailed information regarding these balances.

Effective January 1, 2022, COMB Medicare retirees were automatically transferred to a new Medicare Advantage health plan which carried a substantially lower premium. Retirees that have not reached Medicare age will remain in their current plan until such time they reach age 65 and they will be automatically transferred to the new plan, as well. COMB recognized approximately \$1.9M reduction in the measured liability at June 30, 2022 as a result of this plan change. The adjustment was recognized as a Change in Benefit Terms which provides that the entire decrease in measured liability flows through OPEB expense in the current year as opposed to other unexpected changes which are deferred over a given period.

## Notes to the Basic Financial Statements

### Note 1 – Organization

The Cachuma Operation and Maintenance Board (COMB) is a joint powers agency organized to operate and maintain the water delivery system of the Cachuma Project located in Santa Barbara County. COMB's member agencies (Member Agencies) consist of four water purveyors as follows: Carpinteria Valley Water District, City of Santa Barbara, and Goleta Water District, Montecito Water District.

On May 27, 2016, Santa Ynez River Water Conservation District, Improvement District No. 1 (ID No. 1) notified the COMB Board of its stated intent to withdraw from the Agreement. A Separation Agreement was entered into by ID No. 1, COMB, and the remaining COMB Member Agencies and was approved by all parties effective August 28, 2018. ID No. 1 continues to be a member of the Cachuma Project which carries certain benefits and obligations associated with the Project as outlined in various agreements.

The Member Agencies entered into a Joint Exercise of Powers Agreement to exercise their common power to provide for the rights to, the facilities of, and the operation, maintenance and use of the United States, Department of the Interior, Bureau of Reclamation project known as the Cachuma Project, including storage, treatment, transport and appurtenant facilities, and all necessary tangible and intangible property rights. In September 2010, the Cachuma Operation and Maintenance Board approved a budget adjustment effective January 2011 to transfer from CCRB the implementation activities of the Santa Ynez River Fisheries Program as required by the 2000 Biological Opinion.

### Note 2 – Summary of Significant Accounting Policies

#### A) Basis of Accounting

COMB operates as a proprietary fund type. All proprietary fund types are accounted for on a flow of economic resources measurement focus. Under this measurement focus, all assets and liabilities associated with the operation of these funds are included in the statement of net position. Where appropriate, net total position are segregated into net position invested in capital assets and unrestricted position. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in total net position.

## Notes to the Basic Financial Statements

### Note 2 – Summary of Significant Accounting Policies (Continued)

#### A) Basis of Accounting (Continued)

All proprietary fund types utilize the accrual basis of accounting. Under this method, revenues are recognized at the time the related liabilities are incurred regardless of when paid.

COMB distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with COMB's principal ongoing operations. The principal operating revenues of COMB are assessments of the Member Agencies and grant monies received. Operating expenses for COMB include maintenance and administrative expenses, depreciation on capital assets and litigation costs. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The financial statements of COMB have been prepared in conformity with Generally Accepted Accounting Principles (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting financial reporting principles.

#### B) Cash and Cash Equivalents

For purposes of the statement of cash flows, cash includes demand deposits and money market accounts, but does not include restricted cash or funds invested in the Local Agency Investment Fund (LAIF).

#### C) Capital Assets

Property and equipment are stated at cost. COMB's capitalization threshold is \$5,000. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which is generally 5 years. Title to the assets of the Cachuma Project is with the United States of America; the assets are not recorded as assets of COMB. Costs relating to capital improvements, rehabilitation, betterment, maintenance and modifications are therefore reported as expenditures when incurred by COMB.

## Notes to the Basic Financial Statements

### Note 2 – Summary of Significant Accounting Policies (Continued)

#### D) Investments

Investments in governmental investment pools are reported at fair value based on the fair value per share of the pool's underlying portfolio.

#### E) Accrued Vacation and Sick Pay

Employees are entitled to certain compensated absences based on their length of employment. With minor exceptions, compensated absences vest and accumulate and are accrued when they are earned.

#### F) Unspent Operating Assessments

The operating assessments represent amounts received from COMB's Member Agencies to fund current operations. To the extent that revenues exceed expenses in a given year, they are constructively returned to the Member Agencies in subsequent years.

#### G) Other Post-Employment Benefits (OPEB)

For purposes of measuring the net OPEB liability/asset, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of COMB's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with benefit terms.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date:	June 30, 2022
Measurement Date:	June 30, 2022
Measurement Period:	July 1, 2021 – June 30, 2022

## Notes to the Basic Financial Statements

### Note 2 – Summary of Significant Accounting Policies (Continued)

#### H) Pension Plan

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of COMB's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The following timeframes are used for pension reporting:

Valuation Date:	June 30, 2020
Measurement Date:	June 30, 2021
Measurement Period:	July 1, 2020 – June 30, 2021

#### I) Net Position

Net position represents the difference between assets, deferred outflows, liabilities and deferred inflows is classified into three components as follows:

Net investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net investment in capital assets excludes unspent debt proceeds.

Restricted – This component of net position consists of constraints placed on net asset use through external constraints imposed by creditors, grantors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – This component of net position consists of net position that does not meet the definition of "restricted" or "net investment in capital assets." Unrestricted, reserved net position represents unrestricted assets which are segregated by the Board of Directors for specific future uses.

## Notes to the Basic Financial Statements

### Note 2 – Summary of Significant Accounting Policies (Continued)

I) Net Position (Continued)

When an expense is incurred for purposes for which both unrestricted and restricted resources are available for use, it is COMB's policy to apply restricted assets first, then unrestricted resources.

J) Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. COMB's principal areas that include estimates are the liabilities and related receivables for Safety of Dams Act construction in process, useful lives of capitalized assets and the liability for other postemployment benefits. It is at least reasonably possible that the significant estimates used will change within the next year.

K) Unearned Revenue

Deferred revenue consists of the unspent Renewal Fund and Warren Act Trust fund money that is restricted for Lake Cachuma projects. Each year, the Fund Committees decide how to spend these funds and revenue is recognized when the money is spent. See Note 4 for disclosures on restricted cash.

L) Implementation of New Governmental Accounting Standards Board (GASB) Statements

For the year ended June 30, 2022, COMB implemented the following Governmental Accounting Standards Board (GASB) Statements:

## Notes to the Basic Financial Statements

### Note 2 – Summary of Significant Accounting Policies (Continued)

#### L) Implementation of New Governmental Accounting Standards Board (GASB) Statements (Continued)

Statement No. 87	"Leases"	The requirements of this statement are effective for periods beginning after June 15, 2021. (FY 21/22)
Statement No. 89	"Accounting for Interest Cost Incurred Before the End of a Construction Period"	The requirements of this statement are effective for periods beginning after December 15, 2020. (FY 21/22)
Statement No. 92	"Omnibus 2020"	The requirements of this statement are effective for periods beginning after December 15, 2020. (FY 21/22)
Statement No. 93	"Replacement of Interbank Offered Rates"	The requirements of this statement are effective for periods beginning after June 15, 2021. (FY 21/22)
Statement No. 97	"Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32"	The requirements of this statement are effective for periods beginning after June 15, 2021. (FY 21/22)

The adoption of these statements did not have a material impact on COMB.

## Notes to the Basic Financial Statements

### Note 2 – Summary of Significant Accounting Policies (Continued)

#### M) Future Governmental Accounting Standards Board (GASB) Statements

The Governmental Accounting Standards Board Statements listed below will be implemented in future financial statements. These statements will be evaluated by COMB to determine if they will have a material impact to the financial statements once effective.

Statement No. 91	"Conduit Debt Obligations"	The requirements of this statement are effective for periods beginning after December 15, 2021. (FY 22/23)
Statement No. 94	"Public-Private and Public-Private Partnerships and Availability Payment Arrangements"	The requirements of this statement are effective for periods beginning after June 15, 2022. (FY 22/23)
Statement No. 96	"Subscription-Based Information Technology Arrangements"	The requirements of this statement are effective for periods beginning after June 15, 2022. (FY 22/23)
Statement No. 99	"Omnibus 2022"	The requirements of this statement are effective for periods beginning after June 15, 2022. (FY 22/23)
Statement No. 100	"Accounting Changes and Error Corrections—an amendment of GASB Statement No. 62"	The requirements of this statement are effective for periods beginning after June 15, 2023. (FY 23/24)
Statement No. 101	"Compensated Absences"	The requirements of this statement are effective for periods beginning after December 15, 2023. (FY 24/25)

### Note 3 – Cash and Investments

#### Investments Authorized by COMB's Investment Policy

Under the provisions of COMB's investment policy, the agency may invest in state or national banks, state or federal saving and loan associations, the State of California Local Agency Investment Fund (LAIF), or may invest as provided in the California Government Code.

## Notes to the Basic Financial Statements

### Note 3 – Cash and Investments (Continued)

#### Investment in Local Agency Investment Fund (LAIF)

LAIF is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the COMB's investment in this pool is reported in the accompanying financial statements at amounts based on the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio. The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on the amortized cost basis. LAIF invests some of its portfolio in derivatives. Detailed information on derivative investments held by this pool is not readily available. Investments in LAIF are not rated by a national rating agency.

#### Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. COMB did not have any investments with fair values that are considered to be highly sensitive to changes in interest rates.

#### Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are uninsured and uncollateralized. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, COMB will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of COMB and are held by either the counter-party or the counter-party's trust department or agent but not in COMB's name.

All cash is entirely insured or collateralized. The California Government Code requires California banks and savings and loans associations to secure COMB's deposits by pledging government securities, which equal at least 110% of COMB's deposits. California law also

## Notes to the Basic Financial Statements

### Note 3 – Cash and Investments (Continued)

#### Custodial Credit Risk (Continued)

permits financial institutions to secure COMB's deposits by the pledging of first trust deed mortgage notes in excess of 150% of the COMB's deposits. COMB may waive collateral requirements for deposits that are fully insured by the Federal Deposit Insurance Corporation (FDIC).

None of COMB's deposits with financial institutions in excess of federal depository insurance limits were held in uncollateralized accounts.

#### Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. COMB's investment in the Local Agency Investment Fund is not rated.

#### Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, COMB was not exposed to concentration of credit risk.

#### Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, COMB was not exposed to foreign currency risk.

## Notes to the Basic Financial Statements

### Note 3 – Cash and Investments (Continued)

Cash and investments as of June 30, 2022 and 2021 consist of the following:

	2022	
	Carrying Amount	Fair Value
Cash in banks and on hand	\$ 818,416	\$ 818,416
Local Agency Investment Fund (LAIF)	1,592,561	1,572,058
Total cash and investments, at fair value	<u>\$ 2,410,977</u>	<u>\$ 2,390,474</u>
	2021	
	Carrying Amount	Fair Value
Cash in banks and on hand	\$ 648,721	\$ 648,721
Local Agency Investment Fund (LAIF)	1,592,778	1,592,778
Total cash and investments, at fair value	<u>\$ 2,241,499</u>	<u>\$ 2,241,499</u>

#### Investment in Local Agency Investment Fund (LAIF)

COMB is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of COMB's investment in this pool is reported in the accompanying basic financial statements at the amounts based upon COMB's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio. The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. The amortized cost approximates fair value. LAIF invests some of its portfolio in derivatives. Detailed information on derivative investments held by this pool is not readily available. Investments in LAIF are not rated by a national rating agency.

### Note 4 – Restricted Assets

The Cachuma Project Trust Fund (Trust Fund) and the Cachuma Project Renewal Fund (Renewal Fund) are two separate funds that have been established through contracts with the U.S. Bureau of Reclamation (Reclamation). The Trust Fund is a requirement of the

## Notes to the Basic Financial Statements

### Note 4 – Restricted Assets (Continued)

Warren Act contract between the Central Coast Water Authority (CCWA) and Reclamation for the transport of State Water Project water through Cachuma Project facilities.

The Warren Act contract is an agreement between the Central Coast Water Authority (CCWA) and Reclamation for the delivery and transport of State Water Project water through the Cachuma Project facilities. A memorandum of understanding (MOU) creating the Trust Fund established a two person Fund Committee and an Advisory Committee. One member of the Fund Committee is appointed by the Member Agencies through COMB. The other member of the Fund Committee is a representative from Reclamation. CCWA and the Advisory Committee can attend the Trust Fund Committee meetings but have no vote.

The Renewal Fund is a requirement of the Cachuma Project Renewal Master Contract between Reclamation and the Santa Barbara County Water Agency. The contract provides for water service from the Cachuma Project to the five Cachuma Project Member Units. The Cachuma Project Renewal Master Contract specified that five years after adoption of the first Annual Plan, the Contractor (Santa Barbara County) shall be substituted for the Contracting Officer (Reclamation) for the Renewal Fund discussions; this change in representation began in WY2003 and Santa Barbara County has been the representative since that time.

Through COMB Board Resolution No. 249 adopted in 1997, the COMB Member Agencies agreed to merge the processes for implementation and administration of the Cachuma Project Warren Act Trust Fund and the Cachuma Project Master Contract Renewal Fund under a single committee (referred to as the Funds Committee). The Funds Committee composition dictates that the voting members of the Funds Committee are Reclamation, COMB and Santa Barbara County. Both the Trust Fund and the Renewal Fund require annual and five-year plans. To date, the annual and five-year plans have authorized the combined funds to be used for implementation of the Biological Opinion (BO)/Fish Management Plan (FMP). Pursuant to the Renewal Master Contract, COMB administers both the Trust Fund and the Renewal Fund accounts.

Summary of restricted cash and investments as of June 30:

	2022	2021
Trust Fund	\$ 220,682	\$ 80,631
Renewal Fund	55,285	15,032
General Fund (Oak Tree Grant)	2,690	-
Total Restricted Cash	<u>\$ 278,657</u>	<u>\$ 95,663</u>

## Notes to the Basic Financial Statements

### Note 5 – Cachuma Project Betterment Fund

Since the Cachuma Project was completed in the mid-1950s, the Santa Barbara County Water Agency has collected \$100,000 per year in taxes for the betterment of the Cachuma Project. For the first 40 years, these funds were used to pay down the capital cost of constructing the Cachuma Project. The authorized uses of these funds were broadened in 1995 pursuant to the Renewal Master Contract. The County Water Agency was still obligated to provide \$100,000 annually to the Cachuma Project. However, under Article 8 (b), the funds could be used for any beneficial purpose consistent with the Water Agency Act within the Santa Ynez River watershed or the Cachuma Project service area. Each fiscal year, representatives from the Cachuma Project Member Units and the County Water Agency must mutually agree on the activities to be funded by the County Water Agency's \$100,000 contribution. To date, the Betterment Fund has been combined with the Trust Fund and Renewal Fund revenues to offset the costs of the Fisheries Program. On January 1, 2011, the balance of the Betterment fund was transferred from Cachuma Conservation Release Board to COMB to support the Fisheries Program.

### Note 6 – SOD Act Assessments Receivable and Contract Payable

#### Bradbury Dam

On July 1, 2002, COMB executed a repayment contract with U.S. Bureau of Reclamation in the Department of Interior of the United States (Reclamation). Under the terms of the agreement and in accordance with the United States Safety of Dams (SOD) Act, COMB will reimburse Reclamation for fifteen percent (15%) of the total amount of SOD Act funds expended by Reclamation to preserve the structural integrity of Bradbury Dam and related Cachuma Project facilities.

COMB entered into a repayment contract with Reclamation when the project was deemed to be substantially complete. The repayment contract, as executed, calls for a repayment of 15% of a total authorized cost of \$45,276,008 or approximately \$6,791,000 plus interest, as appropriate, over a 50-year period.

## Notes to the Basic Financial Statements

### Note 6 – SOD Act Assessments Receivable and Contract Payable (Continued)

#### Bradbury Dam (Continued)

The repayment obligation has been allocated fifty-one and three tenths percent (51.3%) to irrigation uses (Irrigation Allocation) or \$3,483,989 and forty eight and seven tenths percent (48.7%) to municipal and industrial (M&I) uses (M&I Allocation) or \$3,307,412. The Irrigation allocation bears no interest and repayment commenced in fiscal year end 2017. Interest during construction in the amount of \$325,477 was added to the M&I Allocation. During construction COMB made advances in the amount of \$1,496,148 that were applied against the M&I Allocation amounts. Accounting for advances made by COMB during construction, the balance due under the M&I Allocation contract was \$2,136,741.

COMB will assess the Cachuma Project Member Units annually amounts equal to the obligation due Reclamation. The annual payment requirements at June 30, 2022 to retire the contract as of October 1, 2051, including interest payments at 5.856%, are presented in the following table. This table does not include adjustments that will be made to the Bradbury Dam repayment contract due to additional incurred costs or for payments that will be required under the Lauro Dam repayment contract.

	M&I Allocation		Irrigation Allocation	Total
	Principal	Interest		
2023	\$ 124,041	\$ 40,829	\$ 96,778	\$ 261,648
2024	131,305	33,565	96,778	261,648
2025	138,994	25,876	96,778	261,648
2026	147,133	17,737	96,778	261,648
2027	155,749	9,121	96,778	261,648
2028 - 2032	-	-	483,890	483,890
2033 - 2037	-	-	483,890	483,890
2038 - 2042	-	-	483,890	483,890
2043 - 2047	-	-	483,890	483,890
2048 - 2052	-	-	483,860	483,860
	<u>\$ 697,222</u>	<u>\$ 127,128</u>	<u>\$ 2,903,310</u>	<u>\$ 3,727,660</u>

## Notes to the Basic Financial Statements

### Note 6 – SOD Act Assessments Receivable and Contract Payable (Continued)

#### Bradbury Dam (Continued)

The interest expense for the Bradbury Dam SOD Act contract payable was \$47,691 and \$54,174 for the years ended June 30, 2022 and 2021, respectively.

The total cost of the Bradbury Dam SOD Act project is to be reevaluated and the repayment agreement amended as necessary by Reclamation and COMB when all phases of the work are completed. Total project costs as of June 30, 2022 were \$48,321,547, \$3,045,539 higher than the total cost authorized under the repayment contract. It is management's opinion that COMB will be responsible for reimbursing Reclamation 15% of the total construction costs in excess of the costs per the original repayment contract.

As of June 30, 2022, an additional liability of \$456,831 was recorded for construction costs incurred in excess of the original repayment agreement. This is an estimate based on management's best judgment which may be adjusted as more current information becomes available.

Reclamation can also reevaluate the ability of COMB's Member Agencies to repay the Irrigation Allocation every five years, commencing in fiscal year end 2008. No adjustment has been made to the Irrigation Allocation balance to reflect a discount due to the non-interest bearing feature of the contract.

#### Lauro Dam

On March 21, 2007, COMB executed a repayment contract with U.S. Bureau of Reclamation in the Department of Interior of the United States (Reclamation). Under the terms of the agreement and in accordance with the United States Safety of Dams (SOD) Act, COMB will reimburse Reclamation for fifteen percent (15%) of the total amount of SOD Act funds expended by Reclamation to preserve the structural integrity of Lauro Dam and reservoir; total costs not to exceed \$17,314,125. The primary contract for construction of the modification project was awarded by Reclamation in September 2005 and the work was deemed substantially complete in February 2007.

## Notes to the Basic Financial Statements

### Note 6 – SOD Act Assessments Receivable and Contract Payable (Continued)

#### Lauro Dam (Continued)

The total costs of the Lauro Dam SOD Act project was to be re-evaluated and repayment agreement amended as necessary. During 2017, the Reclamation completed its final accounting for the project and issued a final repayment schedule. The repayment obligation has been allocated fifty and seventy two one hundredths percent (50.72%) to irrigation uses (Irrigation Allocation) or \$512,139, and forty nine and twenty eight hundredths percent (49.28%) to municipal and industrial (M&I) uses (M&I Allocation) or \$497,598. The Irrigation allocation bears no interest

COMB will assess the COMB Member Agencies annually amounts equal to the obligation due October 1, 2057, including interest payments at 4.556%, are presented in the following table. This table represents the final repayment contract received during fiscal year 2017.

	M&I Allocation		Irrigation Allocation	Total
	Principal	Interest		
2023	\$ 21,549	\$ 13,629	\$ 12,227	\$ 47,405
2024	22,531	12,647	12,227	47,405
2025	23,557	11,620	12,227	47,404
2026	24,630	10,547	12,227	47,404
2027	25,753	9,425	12,227	47,405
2028 - 2032	147,469	28,418	61,136	237,023
2033 - 2037	33,645	1,533	61,136	96,314
2038 - 2042	-	-	61,136	61,136
2043 - 2047	-	-	61,136	61,136
2048 - 2052	-	-	61,136	61,136
2053 - 2057	-	-	61,136	61,136
2058 - 2058	-	-	12,227	12,227
	<u>\$ 299,134</u>	<u>\$ 87,819</u>	<u>\$ 440,178</u>	<u>\$ 827,131</u>

The interest expense for the Lauro Dam SOD Act contract payable was \$14,568 and \$15,466 for the years ended June 30, 2022 and 2021, respectively.

Management deems the assessments receivable related to the Bradbury and Lauro Dams SOD Act projects to be fully collectable.

## Notes to the Basic Financial Statements

### Note 6 – SOD Act Assessments Receivable and Contract Payable (Continued)

The total SOD Act liability at June 30, 2022 and 2021 is composed of the following:

	June 30, 2022	June 30, 2021
Bradbury Dam repayment contract:		
M&I principal	\$ 697,222	\$ 814,401
Irrigation principal	2,903,310	3,000,089
Total Bradbury Dam repayment contract excluding interest	3,600,532	3,814,490
Bradbury Dam liability for 15% of additional costs incurred over repayment contract	456,831	456,831
Total Bradbury Dam SOD Act liability	4,057,363	4,271,321
Lauro Dam repayment contract:		
M&I principal	299,134	319,743
Irrigation principal	440,178	452,405
Total Lauro SOD Act liability	739,312	772,148
Total SOD Act liability	4,796,675	5,043,469
Less current portion	(254,595)	(246,794)
Long-term portion of SOD Act liability	\$ 4,542,080	\$ 4,796,675

## Notes to the Basic Financial Statements

### Note 7 – Notes Payable

On July 25, 2014, COMB entered into two notes payable agreements with American Riviera Bank for a total of \$3,200,000 to finance the Emergency Pumping Facilities Project on behalf of Goleta Water District, Carpinteria Valley Water District, and Montecito Water District (participating member agencies). Per the agreement, COMB may draw upon these funds similar to a line of credit until July 25, 2016, at which time a repayment schedule will be provided for the balance of funds drawn. As of June 30, 2016 and 2015, the total outstanding balance on the notes payable was \$2,601,317.

Beginning on August 25, 2014 and until July 25, 2016, COMB was required to make monthly interest payments on the unpaid balance at an initial interest rate of 3.00%. At the end of the straight line of credit period, COMB will make principal and interest payments based on the repayment schedule that will be provided for the balance of funds drawn. The interest rate for the repayment schedule will be established based on the Prime rate as of July 25, 2016.

COMB will make payments on behalf of the participating member agencies and will assess Goleta Water District, Carpinteria Valley Water District and Montecito Water District each member units' share of the debt service payment quarterly.

The loans were guaranteed by the participating member agencies as follows:

	<u>Amount</u>	<u>Allocation</u>
Goleta Water District	\$ 2,016,000	63%
Carpinteria Valley Water District	608,000	19%
Montecito Water District	576,000	18%
	<u>\$ 3,200,000</u>	<u>100%</u>

As a condition of notes payable, at least \$2 million dollars of the notes was required to be spent on capital infrastructure of the Emergency Pumping Facilities Project. In addition, COMB is also required to maintain a deposit relationship at American Riviera Bank. The participating member agencies are required at all times during the loan to set and maintain member unit customer water rates at a level sufficient to pay all outstanding annual member agency debt service and to set aside such debt service revenues in a special district reserve account maintained at a rate of 1.25 to 1 of annual debt service reserve for each dollar outstanding debt service payments due in any particular year.

## Notes to the Basic Financial Statements

### Note 7 – Notes Payable (Continued)

On July 25, 2016, the draw down period on the notes payable ended and COMB received repayment agreements. The combined outstanding balance on the notes was \$2,601,317 at July 25, 2016. Per the repayment agreements, the notes are due over a period of 5 years with combined monthly payments of \$47,384, including principal and interest. The interest rates on the notes are 3.5%. COMB will make payments on behalf of the participating member agencies and will assess Goleta Water District, Carpinteria Valley Water District and Montecito Water District each member units' share of the debt service payment quarterly.

The following table shows the allocation of the final notes payable balance by participating Member Agency.

	<u>Amount</u>	<u>Allocation</u>
Goleta Water District	\$ 1,638,830	63%
Carpinteria Valley Water District	494,250	19%
Montecito Water District	468,237	18%
	<u>\$ 2,601,317</u>	<u>100%</u>

On August 19, 2016, Carpinteria Valley Water District paid its allocation of the notes payable in full.

On September 1, 2016, American Riviera Bank issued a revised repayment schedule to incorporate Carpinteria Valley Water District's payment. The notes are due over a period of 5 years with combined monthly payments of \$38,478, including principal and interest. The interest rates on the notes are 3.75%. COMB will make payments on behalf of the participating member agencies and will assess Goleta Water District and Montecito Water District each member agencies' share of the debt service payment quarterly.

In July 2021, the note payable was paid in full. The interest expense for the notes payable was \$115 and \$10,775 for the for the years ended June 30, 2022 and 2021, respectively.

## Notes to the Basic Financial Statements

### Note 8 – Long-Term Debt

Changes in long term debt amounts for years ended June 30, 2022 and 2021 were as follows:

	Beginning Balance 2021	Additions	Principal Payments	Adjustments	Ending Balance 2022
SOD Act liabilities	\$5,043,469	\$ -	\$ (246,794)	\$ -	\$4,796,675
Notes payable	36,623	-	(36,623)	-	-
	<u>\$5,080,092</u>	<u>\$ -</u>	<u>\$ (283,417)</u>	<u>\$ -</u>	<u>\$4,796,675</u>

	Beginning Balance 2020	Additions	Principal Payments	Adjustments	Ending Balance 2021
SOD Act liabilities	\$5,282,882	\$ -	\$ (239,413)	\$ -	\$5,043,469
Notes payable	487,584	-	(450,961)	-	36,623
	<u>\$5,770,466</u>	<u>\$ -</u>	<u>\$ (690,374)</u>	<u>\$ -</u>	<u>\$5,080,092</u>

## Notes to the Basic Financial Statements

### Note 9 – Capital Assets

The following is a summary of capital assets which include property, plant and equipment at June 30, 2022 and 2021.

	Beginning Balance 2021	Additions	Deletions	Ending Balance 2022
Vehicles	\$ 468,728	\$ 74,992	\$ (28,821)	\$ 514,899

### Note 10 – Joint Powers Insurance Authority

COMB participates in the property and liability program organized by the Association of California Water Agencies/Joint Powers Insurance Authority (ACWA/JPIA). Employees working for COMB receive the benefits of this plan through the employee services agreement. ACWA/JPIA is a Joint Powers Authority created to provide a self-insurance program to water agencies in the State of California. The ACWA/JPIA is not a component unit of COMB for financial reporting purposes, as explained below.

---

## Notes to the Basic Financial Statements

### Note 10 – Joint Powers Insurance Authority (Continued)

ACWA/JPIA provides liability, property and workers' compensation insurance for approximately 300 water agencies for losses in excess of the member agencies specified self-insurance retention levels. Individual claims (and aggregate public liability and property claims) in excess of specified levels are covered by excess insurance policies purchased from commercial carriers. ACWA/JPIA is governed by a board comprised of members from participating agencies. The board controls the operations of ACWA/JPIA, including selection of management and approval of operating budgets, independent of any influence by the members beyond the representation on the board. Each member shares surpluses and deficiencies proportionately to its participation in ACWA/JPIA.

Additional information and complete financial statements for the ACWA/JPIA are available for public inspection at 5620 Birdcage Street, Suite 200, Citrus Heights, CA, between the hours of 8 a.m. and 5 p.m., Monday through Friday.

### Note 11 – Deferred Compensation Plan

COMB offers its employees a deferred compensation plan created in accordance with the Internal Revenue Code Section 457. The plan, available to employees at their option, permits participants to defer a portion of their salary until future years. The deferred compensation is not available to participants until termination, retirement, death, or unforeseeable emergency. All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are maintained (until paid or made available to the participant or beneficiary) in a trust account held by State Street Bank and Trust and administered by Lincoln Financial Group. Participants have sole rights under the plan in an amount equal to the fair market value of the deferred for each participant. Contributions made by COMB for the employees to the plan for the years ended June 30, 2022 and 2021 were \$42,272 and \$46,562, respectively.

## Notes to the Basic Financial Statements

### Note 12 – Pension Plan

#### Plan Description

All qualified employees are eligible to participate in COMB's Miscellaneous Employee Pension Plan, a cost-sharing multiple employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and local government resolution. Eligible employees hired after January 1, 2013 that are considered new members as defined by the Public Employees' Pension Reform Act (PEPRA) participate in the PEPRA Miscellaneous Plan. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website at: <https://www.calpers.ca.gov/>

#### Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, as discussed above. Members with five years of total service are eligible to retire at age 50, or 52 if in the PEPRA Miscellaneous Plan, with statutorily reduced benefits. An optional benefit regarding sick leave was adopted. Any unused sick leave accumulates at the time of retirement will be converted to credited service at a rate of 0.004 years of service for each day of sick leave. All members are eligible for non-duty disability benefits after 10 years of service. The system also provides for the Optional Settlement 2W Death Benefit, as well as the 1959 Survivor Benefit. The cost of living adjustments for all plans are applied as specified by the Public Employees' Retirement Law.

#### Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. COMB is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

## Notes to the Basic Financial Statements

### Note 12 – Pension Plan (Continued)

Beginning in fiscal year 2016, CalPERS collects employer contributions for the Plan as a percentage of payroll for the normal cost portion as noted in the rates above, and as a dollar amount for contributions toward the unfunded liability. The District's required contribution for the unfunded liability was \$156,034 and \$130,508 for the fiscal years ended June 30, 2022 and 2021, respectively.

For employees hired prior to January 1, 2013 and for all classic members as defined by PEPR, the District pays the a portion of the employee's contribution in addition to the employer's contribution. Effective July 2017, all employees who are "Classic" employees as defined by CalPERS will begin contributing towards their employee member contribution under a phased-in method over the next five years (1.4% annual incremental increase each July 1st) not to exceed 7%. These contributions made on behalf of employees are included in operating expenses on the statement of revenues, expenses, and changes in net position, but are not included in pension expense as disclosed below.

The Plans' provisions and benefits in effect at June 30, 2022 and 2021, are summarized as follows:

	<u>Miscellaneous Plan</u>	
	Prior to January 1, 2013	On or after January 1, 2013
Hire date		
Benefit formula	2% @ 55	2% @ 62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	monthly for life	monthly for life
Retirement age	50 - Minimum	52 - Minimum
Monthly benefits, as a % of eligible compensation	1.4% to 2.4%	1.0% to 2.5%
Required employee contribution rates		
2022	7.00%	6.75%
2021	7.00%	7.25%
Required employer contribution rates		
2022	10.88%	7.59%
2021	11.03%	7.73%

## Notes to the Basic Financial Statements

### Note 12 – Pension Plan (Continued)

#### Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2022, COMB reported a liability of \$1,162,437 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability for all Plans used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2020 rolled forward to June 30, 2021 using standard update procedures. COMB's proportion of the net pension liability was based on a projection of their long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

COMB's proportionate share of the net pension liability for all Plans as of June 30, 2021 and 2020 (measurement dates) was as follows:

<u>Measurement Date June 30, 2021</u>		<u>Measurement Date June 30, 2020</u>	
Proportion – June 30, 2020	0.04927%	Proportion – June 30, 2019	0.04728%
Proportion – June 30, 2021	<u>0.06122%</u>	Proportion – June 30, 2020	<u>0.04927%</u>
Change – Increase (Decrease)	<u>0.01195%</u>	Change – Increase (Decrease)	<u>0.00199%</u>

For the years ended June 30, 2022 and 2021, COMB recognized pension expense of \$383,322 and \$379,095, respectively. COMB's contributions to the Plan for the years ended June 30, 2022 and 2021 were \$282,006 and \$246,414, respectively.

At June 30, 2022 and 2021, COMB reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

## Notes to the Basic Financial Statements

### Note 12 – Pension Plan (Continued)

#### Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

	June 30, 2022		June 30, 2021	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources

Changes in assumptions	-	-	-	(14,823)
Changes in employer's proportion	67,309	-	81,963	-
Difference between the employer's contributions and the employer's proportionate share of contributions	-	(87,999)	-	(88,379)
Net differences between projected and actual earnings on plan investments	-	(1,014,746)	61,736	-
Total	<u>\$ 479,670</u>	<u>\$ (1,102,745)</u>	<u>\$ 497,209</u>	<u>\$ (103,202)</u>

Employer contributions of \$282,006 reported at June 30, 2022 as deferred outflows of resources related to contributions made subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

## Notes to the Basic Financial Statements

### Note 12 – Pension Plan (Continued)

#### Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Fiscal Year Ended	
June 30	
2023	\$ (192,950)
2024	(202,180)
2025	(229,527)
2026	(280,424)
2027	-
Thereafter	-
	<u>\$ (905,081)</u>

Initial unfunded liabilities are amortized over a closed period that depends on the plan's date of entry into CalPERS. Subsequent plan amendments are amortized as level percentage of pay over a closed 20-year period. Gains and losses that occur in the operation of the plan are amortized over a 30 year rolling period. If the plan's accrued liability exceeds the actuarial value of plan assets, then the amortization payment on the total unfunded liability may not be lower than the payment calculated over a 30 year amortization period.

#### Actuarial Assumptions

The total pension liabilities in the June 30, 2020 and 2019 actuarial valuations (June 30, 2021 and 2020 measurement dates) were determined using the following actuarial assumptions:

## Notes to the Basic Financial Statements

(1) Depending on age, service and type of employment

(2) Net of pension plan investment expenses, including inflation

#### Change of Assumptions

Deferred inflows and outflows of resources for changes of assumptions represents the unamortized portion of the changes of assumptions related to prior measurement periods.

## Notes to the Basic Financial Statements

### Note 12 – Pension Plan (Continued)

#### Discount Rate

The discount rate used to measure the total pension liability was 7.15% for the measurement periods ending June 30, 2021 and 2020, respectively. To determine whether the municipal bond rate should be used in the calculation of the discount rate for public agency plans (including PERF C), the amortization and smoothing periods recently adopted by the CalPERS Board were used. For the Plan, the crossover test was performed for a miscellaneous agent rate plan and a safety agent rate plan selected as being more at risk of failing the crossover test and resulting in a discount rate that would be different from the long-term expected rate of return on pension investment. Based on the testing of the rate plans, the tests revealed the assets would not run out. Therefore, long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for PERF C. The crossover test results are presented in a detailed report called “GASB Crossover Testing Report” that can be obtained on CalPERS’ website under the GASB 68 section.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds’ asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected arithmetic real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

## Notes to the Basic Financial Statements

### Note 12 – Pension Plan (Continued)

#### Discount Rate (Continued)

Asset Class	Measurement Date - June 30, 2021			Measurement Date - June 30, 2020		
	Net Strategic Allocation	Real Return Years 1 - 10(a)	Real Return Years 11+(b)	Net Strategic Allocation	Real Return Years 1 - 10(a)	Real Return Years 11+(b)

1% Increase	8.15%	1% Increase	8.15%
Net Pension Liability	\$ 182,933	Net Pension Liability	\$ 1,133,693

## Notes to the Basic Financial Statements

### Note 12 – Pension Plan (Continued)

#### Pension Plan Fiduciary Net Position

Detailed information about all pension plan fiduciary net positions is available in the separately issued CalPERS financial reports.

### Note 13 – Other Post-employment Benefits (OPEB)

#### Plan Description

COMB offers a single-employer post-retirement health insurance benefit plan (medical, dental, and vision service) to retired employees.

For employees hired before February 1, 2014, COMB pays 100% of insurance premiums for retired employees and their spouses/registered domestic partners. Under the Plan, a “retired employee” is a former employee of COMB who (i) performed a minimum of twelve (12) years of continuous service for COMB (or CalPERS covered service); (ii) is receiving a monthly retirement benefit from the Public Employees Retirement System (PERS); and (iii) was employed by COMB immediately prior to becoming eligible to receive benefits under PERS.

For employees hired on and after February 1, 2014, COMB pays 50% of the retiree insurance premiums after 12 years of covered service, with increases in premium payments coverage at 6.25% per covered year until COMB pays 100% of the insurance premium at 20 years of covered service. Under the Plan, a “retired employee” is a former employee of COMB who (i) performed a minimum of twelve (12) years of continuous service for COMB (or CalPERS covered service); (ii) is receiving a monthly retirement benefit from the Public Employees Retirement System (PERS); and (iii) was employed by COMB immediately prior to becoming eligible to receive benefits under PERS. The spouse of a retiree is not included in this coverage.

The Public Employees’ Pension Reform Act (PEPRA) became law in January 2013. Since that time, all retirees reaching Medicare eligible age must enroll in Medicare whereby Medicare becomes primary and their current health insurance coverage through ACWA/JPIA becomes secondary. The OPEB Plan does not have a stand alone report.

## Notes to the Basic Financial Statements

### Note 13 – Other Post-employment Benefits (OPEB) (Continued)

#### Employees Covered

As of the June 30, 2022 actuarial valuation, the following current and former employees were covered by the benefit terms under the OPEB Plan:

Participating active employees	13
Inactive employees or beneficiaries currently receiving benefits	9
Total	<u>22</u>

#### Funding Policy

COMB funds the plan on a pay as you go basis. COMB contributes up to the amount of the monthly premium for employees and dependents, plus administrative fees.

#### Net OPEB Liability

The District's net OPEB liability was measured as of June 30, 2022 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated June 30, 2022 based on the following actuarial methods and assumptions:

	<u>OPEB Plan</u>
Actuarial Cost Method:	Entry-Age Actuarial Cost Method in accordance with the requirements of GASB Statement No. 75
Actuarial Assumptions:	
Inflation	2.50%
Discount Rate	3.54%
Payroll Growth (1)	2.75%
Mortality Assumptions:	2017 CalPERS Active Mortality for Miscellaneous Employees
Mortality Tables	2017 CalPERS Active Mortality for Miscellaneous Employees
Experience Studies:	Hired before 2013: 2017 CalPERS 2.0%@55 Rates for Miscellaneous Employees;
Retirement Tables	Hired after 2013: 2017 CalPERS 2.0%@62 Rates for Miscellaneous Employees
Experience Studies: Turnover Table	2017 CalPERS Turnover for Miscellaneous Employees
Healthcare Trend Rate	4% per year

(1) Benefits are not dependent upon salary. Rate is used in applying the level percentage of projected payroll amortization method.

## Notes to the Basic Financial Statements

### Note 13 – Other Post-employment Benefits (OPEB) (Continued)

#### Discount Rate

The discount rate used to measure the total OPEB liability was 3.54% and 2.16% for the measurement periods ending June 30, 2022 and 2021, respectively. The discount rate is the equivalent index rate for 20-year General Obligation Municipal Bonds with an average rating of A or higher. The Bond Buyer 20 Bond Index at June 30, 2022 was used.

#### Changes in the Net OPEB Liability

The changes in the net OPEB liability for the OPEB Plan are as follows:

	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability/ (Asset) (a) - (b)
Balance at June 30, 2021 (Measurement Date June 30, 2021)	\$ 5,789,486	\$ -	\$ 5,789,486
Changes Recognized for the Measurement Period:			
Service cost	236,346	-	236,346
Interest on Total OPEB Liability	125,738	-	125,738
Contributions - Employer	-	172,946	(172,946)
Benefit Payments	(172,946)	(172,946)	-
Expected versus actual experience	(75,021)	-	(75,021)
Assumption changes	(623,479)	-	(623,479)
Changes in benefit terms	(1,923,020)	-	(1,923,020)
Net Changes	(2,432,382)	-	(2,432,382)
Balance at June 30, 2022 (Measurement Date June 30, 2022)	\$ 3,357,104	\$ -	\$ 3,357,104

#### Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the District if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2022:

1% Decrease	Current Discount Rate	1% Increase
2.54%	3.54%	4.54%
\$ 3,792,012	\$ 3,357,104	\$ 2,996,256

## Notes to the Basic Financial Statements

### Note 13 – Other Post-employment Benefits (OPEB) (Continued)

#### Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trends

The following presents the net OPEB liability of the District if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2022:

Trend 1% Lower	Valuation Trend	Trend 1% Higher
\$ 2,948,805	\$ 3,357,104	\$ 3,857,745

#### Recognition of Deferred Outflows and Deferred Inflows of Resources

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time. Amounts are first recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense.

The recognition period differs depending on the source of the gain or loss. The difference between projected OPEB plan investment earnings and actual earnings is amortized over a five year period. The remaining gains and losses are amortized over the expected average remaining service life, which was 9.3 years at measurement date June 30, 2022.

#### OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the years ended June 30, 2022 and 2021, COMB recognized OPEB expense of (\$1,598,056) and \$388,776, respectively. During the year ended June 30, 2022, COMB switched to a Medicare plan which carried a substantially lower premium than the previous plan. The change in plans had a significant impact, decreasing the measured liability by 1.9M. This was reflected as a Change in Benefit Terms which means that the entire decrease flows through OPEB expense in the current year rather than being deferred and amortized over time. This causes a negative OPEB expense which is reflected as an OPEB benefit.

At June 30, 2022 and 2021, COMB reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

## Notes to the Basic Financial Statements

### Note 13 – Other Post-employment Benefits (OPEB) (Continued)

#### OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB (Continued)

	June 30, 2022		June 30, 2021	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
OPEB contributions subsequent to measurement date	\$ -	\$ -	\$ -	\$ -
Differences between expected and actual experience	-	(584,423)	-	(588,356)
Changes in assumptions	761,719	(556,438)	870,594	-
Total	<u>\$ 761,719</u>	<u>\$ (1,140,861)</u>	<u>\$ 870,594</u>	<u>\$ (588,356)</u>

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

Fiscal Year Ended June 30	
2023	\$ (37,120)
2024	(37,120)
2025	(37,120)
2026	(37,120)
2027	(37,120)
Thereafter	(193,542)
	<u>\$ (379,142)</u>

### Note 14 – Commitments and Contingencies

#### 1993 Cachuma Project Authority Bonds

In 1996 COMB merged with the Cachuma Project Authority (CPA) and as a result of this merger COMB became the agency responsible for the oversight and payment of the 1993 CPA bonds. These bonds have not been recorded on the books of COMB since three of the Member Agencies are obligated under Joint Participation Agreements to make the principal and interest payments on behalf of COMB.

## Notes to the Basic Financial Statements

### Note 14 – Commitments and Contingencies (Continued)

#### 1993 Cachuma Project Authority Bonds (Continued)

On August 19, 2004, COMB refinanced the 1993 CPA bonds with the 2004 Cachuma Operation and Maintenance Board Bonds (Bonds) for \$4,480,000 at varying interest rates from 3.000% to 4.625% on behalf of three Member Agencies. Each of the three Member Agencies participants has entered into one or more joint participation agreements with COMB pursuant to which the Member Agency is obligated to make certain payments with respect to certain additions, betterments, extensions or improvements to such Member Agencies' water system. Such payments will constitute revenues pledged to secure the payment of the principal of and interest on the Bonds.

As of June 30, 2022, Carpinteria and Montecito have paid off their portion of the bond obligation, leaving only ID No. 1 with an outstanding bond obligation. ID No. 1 pays their share of the required payments, including interest and principal, directly to the bond issuer. No money is passed through COMB.

#### Legal Contingencies

In the ordinary course of conducting business, various legal proceedings may be pending; however, in the opinion of COMB's management, the ultimate disposition of these matters will have no significant impact on the financial position of the COMB.

#### Emergency Pumping Facilities Project Operating Costs (EPFP)

As a part of the construction and operating agreement, COMB is obligated to pay \$98,000 a month for operating costs to Cushman Contracting until the pumping facility is disposed. In February 2017, significant rainfall raised the water level at Lake Cachuma and the pump was subsequently demobilized and placed on standby. Monthly costs for when the pump is on stand-by are \$3,500.

COMB staff regularly monitors projected lake elevation scenarios for planning purposes. If it becomes likely that the EPFP needs to be deployed during the current fiscal year, approval for a budget augmentation will be presented to the Board.

Exact timing of EPFP remobilization is dependent on certain factors including, but not limited to, future rainfall, lake elevation and member unit demands.

---

## Notes to the Basic Financial Statements

### Note 14 – Commitments and Contingencies (Continued)

#### Global Pandemic

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a “Public Health Emergency of International Concern” and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate it have had and are expected to continue to have an adverse impact on the economics and financial markets of many countries, including the geographic area in which COMB operates.

### Note 15 – Subsequent Events

Subsequent events have been evaluated through December 9, 2022 the date that the financial statements were available to be issued.

**STATISTICAL SECTION NARRATIVE SUMMARY**

The information in this section is not covered by the Independent Auditor's Report, but is presented as supplemental data for the benefit of the readers of the annual comprehensive financial report. The objectives of statistical section information are to provide financial statement users with additional historical perspective, context and detail to assist in using the information in the financial statements, notes to financial statements, and required supplementary information to understand and assess a government's economic condition.

	Page
<p><b><u>FINANCIAL TRENDS</u></b></p> <p>These schedules contain trend information to help the reader understand how COMB's financial performance and well-being have changed over time.</p>	88-94
<p><b><u>DEBT CAPACITY</u></b></p> <p>These schedules present information to help the reader assess the affordability of COMB's current level of outstanding debt.</p>	95
<p><b><u>ECONOMIC AND DEMOGRAPHIC INFORMATION</u></b></p> <p>These schedules offer economic and demographic indicators to help the reader understand the environment within which COMBs financial activities take place.</p>	96-97
<p><b><u>OPERATING INFORMATION</u></b></p> <p>These schedules contain service and infrastructure data to help the reader understand how the information in COMB's financial report relates to the activities performed by COMB.</p>	98-107

Notes:

(1) Amounts reported exclude Safety of Dams (SOD) assessments.

(2) In July 2014, COMB entered into two notes payable agreements with American Riviera Bank to finance the Emergency Pumping Facilities Project on behalf of Goleta Water District, Carpinteria Water District, and Montecito Water District. The City of Santa Barbara elected to fund its proportionate share (\$1.8M) of the project cost through their quarterly operating assessments.

(3) On May 27, 2016, Santa Ynez River Water Conservation District, Improvement District No. 1 (ID No. 1) notified the COMB Board of its stated intent to unilaterally withdraw from the JPA Agreement. A Separation Agreement was entered into by ID No. 1, COMB and the South Coast Member Units and approved by all parties effective August 28, 2018. Pursuant to the Separation Agreement, starting in Fiscal Year 2017-18 and going forward, certain actual expenditures related to the 2000 BiOp and Oak Tree Mitigation activities incurred by COMB will be collected from ID No. 1 through an invoice issued quarterly to it by COMB.

(4) Assessments for SYRWCD are recorded at gross amount billed for FY 2015-16, 2016-17 and 2017-18. See Note #2 above.

(5) Amount reported is net of Unexpended Funds Credit resulting from current year unexpended funds and carryover funds for project expenditures delayed or placed on hold.

**Notes:**

- (1) Effective January 1, 2022, COMB Medicare retirees were automatically transferred to a new Medicare Advantage health plan which carried a substantially lower premium. Retirees that have not reached Medicare age will remain in their current plan until such time they reach age 65 and they will be automatically transferred to the new plan, as well. COMB recognized approximately \$1.9M reduction in the measured liability at June 30, 2022 as a result of this plan change. The adjustment was recognized as a Change in Benefit Terms which provides that the entire decrease in measured liability flows through OPEB expense in the current year as opposed to other unexpected changes which are deferred over a given period.
- (2) South Coast Conduit MURRP - represents capital improvement costs associated with pipeline improvements, the replacement of rehabilitation of certain infrastructure facilities for the portion of the South Coast Conduit between the South Portal of the Tecolote Tunnel and the Corona Del Mar Treatment Plant.
- (3) Drought Contingency Planning includes costs to develop an alternate method of delivering water into the North Portal Intake Tower due to decreasing lake levels associated with a drought condition.
- (4) Emergency Pumping Facility Project (EPFP) includes costs associated with design, build, operation and maintenance of a temporary pumping barge and pipeline to convey water from the Lake during ongoing drought conditions and low lake levels. In February 2017, the EPFP was demobilized following a significant rain event which raised the lake level to over 50% capacity. Key components of the EPFP have been purchased and stored should it become necessary to remobilize in the future.

## Notes:

- (1) Effective January 1, 2022, COMB Medicare retirees were automatically transferred to a new Medicare Advantage health plan which carried a substantially lower premium. Retirees that have not reached Medicare age will remain in their current plan until such time they reach age 65 and they will be automatically transferred to the new plan, as well. COMB recognized approximately \$1.9M reduction in the measured liability at June 30, 2022 as a result of this plan change. The adjustment was recognized as a Change in Benefit Terms which provides that the entire decrease in measured liability flows through OPEB expense in the current year as opposed to other unexpected changes which are deferred over a given period.
- (2) South Coast Conduit MURRP - represents capital improvement costs associated with pipeline improvements, the replacement of rehabilitation of certain infrastructure facilities for the portion of the South Coast Conduit between the South Portal of the Tecolote Tunnel and the Corona Del Mar Treatment Plant.
- (3) Drought Contingency Planning includes costs to develop an alternate method of delivering water into the North Portal Intake Tower due to decreasing lake levels associated with a drought condition.
- (4) Emergency Pumping Facility Project (EPFP) includes costs associated with design, build, operation and maintenance of a temporary pumping barge and pipeline to convey water from the Lake during ongoing drought conditions and low lake levels. In February 2017, the EPFP was demobilized following a significant rain event which raised the lake level to over 50% capacity. Key components of the EPFP have been purchased and stored should it become necessary to remobilize in the future.

## Notes:

(1) **Bradbury SOD Act**- A repayment contract with U.S. Bureau of Reclamation (USBR) whereas COMB will reimburse USBR for fifteen (15%) of the total Safety of Funds Act funds expended to preserve the structural integrity of Bradbury Dam and related Cachuma Project facilities.

(2) **Lauro SOD Act** - A repayment contract with U.S. Bureau of Reclamation (USBR) whereas COMB will reimburse USBR for fifteen (15%) of the total Safety of Funds Act funds expended to preserve the structural integrity of Lauro Dam and reservoir.

(3) **Notes Payable EPFP** - A notes payable agreement with American Riviera bank to finance the Emergency Pumping Facilities Project on behalf of Goleta Water District, Carpinteria Water District, and Montecito Water District. The obligation was paid in-full during FY 2021-22.

AFY - Acre feet per year

(1) On May 27, 2016, Santa Ynez River Water Conservation District, Improvement District No. 1 (ID No. 1) notified the COMB Board of its stated intent to unilaterally withdraw from the JPA Agreement. A Separation Agreement was entered into by ID No. 1, COMB and the COMB Member Agencies and approved by all parties effective August 28, 2018. ID No. 1 continues to be a member of the Cachuma Project which carries certain benefits and obligations associated with the Project as outlined in various agreements.

Schedule 10

**COMB Managed Assets**

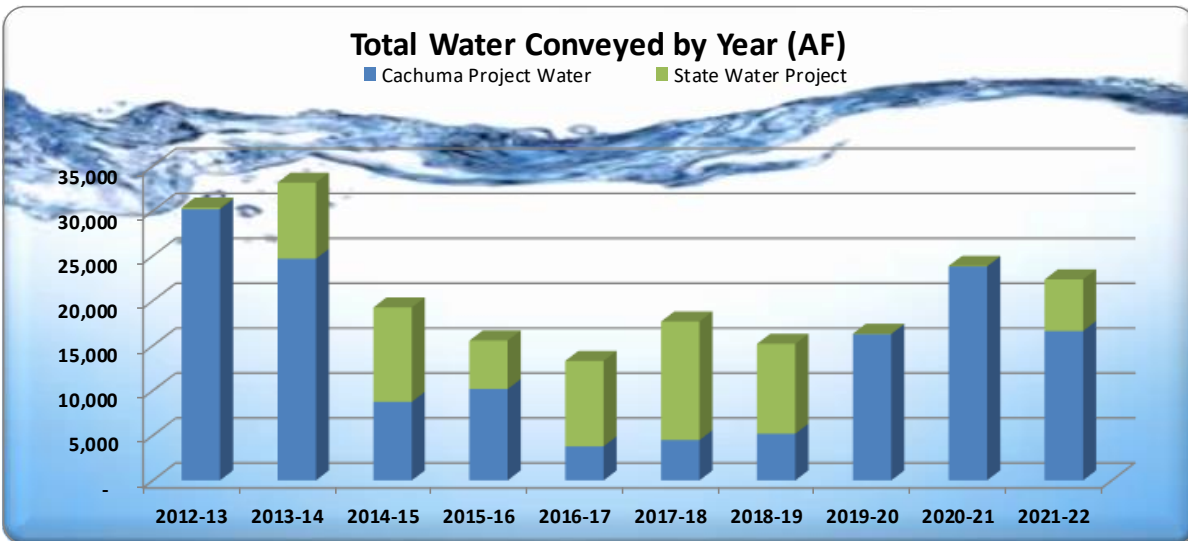

COMB, through a Transferred Project Works contract, is responsible for operating and maintaining Reclamation facilities. COMB operates and maintains the Cachuma Project critical infrastructure assets that include the North Portal, Tecolote Tunnel, South Coast Conduit, Sheffield Tunnel, and Glen Anne, Lauro, Ortega, and Carpinteria Reservoir locations.

**Schedule 11**

**Total Water Conveyed by Source Via South Coast Conduit (Acre Feet)  
Previous Ten Fiscal Years**

Fiscal Year	Cachuma Project Deliveries <sup>(1)</sup>	State Water Project Deliveries <sup>(1),(2)</sup>	Total
2012-13	30,180	193	30,373
2013-14	24,674	8,483	33,157
2014-15	8,750	10,506	19,256

## Note:

(1) COMB participates in the property and liability program organized by the Association of California Water Agencies / Joint Powers Insurance Authority (ACWA/JPIA). ACWA/JPIA provides liability, property and workers' compensation insurance for approximately 350 water agencies for losses in excess of the member agencies specified self-insurance retention levels. Individual claims (and aggregate public liability and property claims) in excess of specified levels are covered by excess insurance policies purchased from commercial carriers.

(2) Total Insurable Value - \$1,846,390
